ARTICLE 1
PURPOSE AND INTENT OF PARTIES

Section 1.

- 1.1** It is the desire of the parties hereto to set forth herein the agreement between them for the term hereof in respect to rates of pay, wages, hours of employment and other conditions of employment to be observed by the parties hereto and the employees covered hereby, and to provide procedure for the prompt and equitable adjustment of grievances arising hereunder to the end that there shall be no interruptions or impeding of work, work stoppages, slowdowns, strikes, lockouts or other interference with production and maintenance of the Company's plant during the term hereof.
- 1.1.2** The parties recognize that for their joint benefit, increase in wages and benefits should be consistent with the long term prosperity and efficiency of the steel industry.
- 1.1.3** The parties are concerned that the future for the industry in terms of employment security and return on substantial capital expenditures will rest heavily upon the ability of the parties to work cooperatively to achieve significantly higher productivity trends than have occurred in the recent past. The parties are acutely aware of the impact upon the industry and its employees of the sizeable penetration of the domestic steel market by foreign producers. The parties have joined their efforts in seeking relief from the problem of massive importation of foreign steel manufactured in low-wage countries. Thus, it is incumbent upon the parties to work cooperatively to meet the challenge posed by principle foreign competitors in recent years. It is also important that the parties cooperate in promoting the use of American-made steel.

Section 2. Advance Notification

- 1.2** The representatives of the Company and the Union shall continue to provide each other with such advance notice as is reasonable under the circumstance on all matters of importance in the administration of the terms of the Labor Agreement, including changes or innovations affecting the relations between the local parties.

ARTICLE 2
SCOPE OF AGREEMENT

Section 1.

- 2.1** The term “employee” as used in this agreement applies to all full time and regular part time nonexempt bargaining unit employees of the Process Automation department employed by the company at its East Chicago, Indiana facilities, including the Indiana Harbor Works, 1414 Field Street, Hammond, Indiana; and the Cline Avenue Warehouse, Fulton and 15th Street, Gary, Indiana, as set forth in the unit description agreed to by the Company and the Union and with respect to which a card check was conducted by the parties’ permanent arbitrator and certified thereto on February 15, 2000 pursuant to paragraph C.5 of the parties’ Neutrality Agreement dated August 1, 1999. In addition, the term “employee” does not include any other non-exempt bargaining unit employee employed by the Company or temporary employees, co-op or intern employees, IN/Tek and IN/Kote employees; nonexempt bargaining unit employees of the Research and Development Department; employees of independent contractors; Burnham Trucking Company employees; managers, exempt bargaining unit employees and confidential employees; professional employees; guards and supervisors as defined in the National Labor Relations Act and other non-exempt bargaining unit employees as agreed to by the parties.

Section 2. Local Working Conditions.

- 2.2** The term “local working conditions” as used herein means specific practices or customs which reflect detailed application of the subject matter within the scope of wages, hours of work, or other conditions of employment and includes local agreements, written or oral, on such matters. It is recognized that it is impracticable to set forth in this Agreement all of these working conditions, which are of a local nature only, or to state specifically in this Agreement which of these matters should be changed or eliminated. The following provisions provide general principles and procedures which explain the status of these matters and furnish necessary guideposts for the parties hereto and the impartial arbitrator.
- 2.2.1** A. It is recognized that an employee does not have the right to have a local working condition established, in any given situation or plant where such condition has not existed, during the term of this Agreement or to have an existing local working condition changed or eliminated, except to the extent necessary to require the application of a specific provision of this Agreement.
- 2.2.2** B. In no case shall local working conditions be effective to deprive any employee of rights under this Agreement. Should any employee believe that a local working condition is depriving him/her of the benefits of this Agreement, he/she shall have recourse to the grievance procedure and arbitration, if necessary, to require that the local working condition be changed or eliminated to provide the benefits established by this Agreement.
- 2.2.3** C. Should there be any local working conditions in effect which provide benefits that are in excess of, or in addition to, the benefits established by this Agreement, they shall remain in effect for the term of this Agreement, except as they are changed or eliminated by mutual agreement or in accordance with paragraph (D) of this Section.
- 2.2.4** D. The Company shall have the right to change or eliminate any local working condition if, as the result of action taken by Management under Article 3--Plant Management, the basis for the existence of the local working condition is changed or eliminated, thereby making it unnecessary to continue such local working condition; provided, however, that when such a change or elimination is made by the Company any affected employee shall have recourse to the grievance procedure and arbitration, if necessary, to have the Company justify its action.
- 2.2.5** E. No local working condition shall hereafter be established or agreed to which changes or modifies any of the provisions of this Agreement, except as it is approved in writing by an International Officer of the Union and the Division Manager – Labor Relations of the Company.
- 2.2.6** F. The settlement of a grievance prior to arbitration under this Section 2 shall not constitute a precedent in the settlement of grievances in other situations in this area.

2.2.7 G. Each party shall, as a matter of policy, encourage the prompt settlement of problems in this area by mutual agreement at the local level.

2.3 Section 3. Contracting Out.

The parties recognize the seriousness of the problems associated with contracting out of work both inside and outside the plant and have accordingly agreed as follows.

2.3.1 The parties have existing rights and contractual understandings with respect to contracting out. In addition, the following provisions shall be applicable to all contracting out issues subject to, and arising on or after the effective date of this Agreement.

A. Basic Prohibition

2.3.2 In determining whether work should be contracted out or accomplished by the bargaining unit, the guiding principle is that work capable of being performed by bargaining unit employees shall be performed by such employees. Accordingly, the Company will not contract out any work for performance inside or outside the plant unless it demonstrates that such work meets one of the following exceptions.

B. Exceptions

2.3.3 1. Work in the Plant

2.4 a. Technical, production, service, all maintenance and repair work, all installation, replacement and reconstruction of equipment and productive facilities, other than that listed in Subparagraph B-1-b below, all within the plant, may be contracted out if (a) the consistent practice has been to have such work performed by employees of contractors and (b) it is more reasonable (within the meaning of paragraph C of this Section) for the Company to contract out such work than to use its own employees.

2.4.1 b. Major new construction including major installation, major replacement and major reconstruction of equipment and productive facilities, at the plant may be contracted out subject to any rights and obligations of the parties which as of the beginning of the period commencing August 1, 1963, are applicable at the plant in the case of any plant which was in operation on or before August 1, 1958. With respect to any other plant, the period commencing date shall be the date five years after the date on which the plant started operations.

2.4.1.1 A project shall be deemed major so as to fall within the scope of this exception if it is shown by the Company that the project is of a grander or larger scale when compared to other projects bargaining unit forces at the plant are normally expected to do. Such comparison should be made in light of all relevant factors.

2.4.2 As regards the term "new construction" above, except for work done on equipment or systems pursuant to a manufacturer's warranty, work that is of a peripheral nature to major new construction, including major installation, major replacement and major reconstruction of equipment and production facilities and which does not concern the main body of work shall be assigned to employees within the bargaining unit unless it is more reasonable to contract-out such work taking into consideration the factors set forth in paragraph C of this Section or it is otherwise mutually agreed. For purposes of this provision, the term "work of a peripheral nature" may in certain instances, include, but not be limited to, demolition, site preparation, road building, utility hook-ups, pipelines and any work which is not integral to the main body.

2. Work Outside the Plant

2.5 a. Should the Company contend that technical, maintenance or repair work to be performed outside the plant or work associated with the fabricating of goods, materials, or equipment purchased or leased from a vendor or supplier should be excepted from the prohibitions of this Section, the Company must demonstrate that it is more reasonable (within the meaning of

paragraph C of this Section) for the Company to contract for such work (including the purchase or lease of the item) than to use its own employees to perform the work or to fabricate the item.

2.5.1

Notwithstanding the above, the Company may purchase standard components or parts or supply items mass produced for sale generally ("shelf items"). No items shall be deemed a standard component or part or supply item if:

- (i) its fabrication requires the use of prints, sketches, or manufacturing instructions supplied by the Company or at its behest or by another company engaged in producing or finishing steel (producing iron ore) it is otherwise made according to Company specifications.
- (ii) it involves a unit of exchange; or
- (iii) it involves the purchase of electric motors, engines, transmissions, or converters under a core exchange program (whether or not title to the unit passes to the vendor/purchaser as part of the transaction), unless such transaction is undertaken with an original equipment manufacturer, or with one of its authorized dealers, provided that the items in the core exchange program that are sold to the Company are rebuilt using instructions and parts supplied by the original equipment manufacturer (or, if the part or parts are not stocked by the original equipment manufacturer, approved by such manufacturer).

It is further provided that adjustments in the length, size, or shape of a shelf item, so that it can be used for a Company specific application, shall be deemed for the purposes of this Section B.2.a., to be fabrication work performed outside the Plant.

2.5.2

- b. Production work may be performed outside the plant only where the Company demonstrates that it is unable because of lack of capital to invest in necessary equipment or facilities, and that it has a continuing commitment to the steelmaking business. In determining whether there is capital to invest in particular equipment or facilities, the Company is entitled to make reasonable judgments about the allocation of scarce capital resources at its plant represented by the Union and its supporting facilities.

3. Mutual Agreement

2.6

Work contracted out by mutual agreement of the parties pursuant to paragraph G of this Section.

4. General Provisions

Where at a particular plant, it is found in a case arising subsequent to November 13, 2005, that the Company (i) engaged in conduct which constitutes willful or repeated violations of paragraph B. 1. or B.2. of this Section, the first of which occurred on or after August 1, 1998; or (ii) violated a cease and desist order previously issued by an Arbitrator in connection with a violation of paragraph B.1. or B.2. of this Section, arising on or after August 1, 1998 or (iii) in cases, the earliest of which arose on or after November 13, 2005, engaged in a pattern of conduct of repeated violations of paragraph B.1 or B.2. of this Section but where no remedy was otherwise appropriate because of practical overtime limits or the unavailability of employees to perform the improperly contracted out work, the Arbitrator shall, as circumstances warrant, fashion a remedy or penalty specifically designed to deter the behavior described in (i), (ii) or (iii), of this paragraph.

C. Reasonableness

2.7

In determining whether it is more reasonable for the Company to contract out work than use its own employees, the following factors shall be considered:

- 1. Whether the bargaining unit will be adversely impacted.
- 2. The necessity for hiring new employees shall not be deemed a negative factor except for work of a temporary nature.
- 3. Desirability of recalling employees on layoff.

4. Availability of qualified employees (whether active or on layoff) for a duration long enough to complete the work.
5. Availability of adequate qualified supervision.
6. Availability of required equipment either on hand or by lease or purchase, provided that either the capital outlay for the purchase of such equipment, or the expense of leasing such equipment, is not an unreasonable expenditure in all the circumstances at the time the proposed decision is made.
7. The expected duration of the work and the time constraints associated with the work.
8. Whether the decision to contract out the work is made to avoid any obligation under the Collective Bargaining Agreement or benefits agreements associated therewith.
9. Whether the work is covered by a warranty necessary to protect the Company's investment. For purposes of this subparagraph, warranties are intended to include work performed for the limited time necessary to make effective the following seller guarantees:
 - a. Manufacturer guarantees that new or rehabilitated equipment or systems are free of errors in quality, workmanship, or design.
 - b. Manufacturer guarantees that new or rehabilitated equipment or systems will perform at stated levels of performance and/or efficiency subsequent to installation.

For equipment or systems ordered after November 13, 2005, and for the purposes of this factor only, the warranties referenced in a. and b. above may not be relied upon by the Company for more than 18 months following acceptance; provided, however, warranties of a longer duration may be relied upon if the Company

- (i) demonstrates that at the time of the sale such longer warranties are the manufacturer's published standard warranties actually offered to customers in the normal course of business; and
- (ii) reviews the documents relating to the warranty and the sales price with the Union members of the Contracting Out Committee at or near the time of the purchase.

Warranties are commitments associated with a particular product or service in order to assure that seller representations will be honored at no additional cost to the Company. Long-term service contracts are not warranties for the purposes of this subparagraph.

10. In the case of work associated with leased equipment, whether such equipment is available without a commitment to use the employees of outside contractors or lessors for its operation and maintenance.
11. Whether, in connection with the subject work or generally, the Local Union is willing to waive or has waived restrictive working conditions, practices, or jurisdictional rules (all within the meaning of "local working conditions" and the authority provided by this Agreement).

D. Contracting Out Committee

- 2.8** 1. A regularly constituted committee consisting of not more than four persons (except that the committee may be enlarged to six persons by local agreement), half of whom shall be members of the bargaining unit and designated by the Union in writing to the plant management and the other half designated in writing to the Union by the plant management, shall attempt to resolve problems in connection with the operation, application, and administration of the foregoing provisions.
- 2.8.1** 2. In addition to the requirements of Paragraph E of this Section, such committee may discuss any other current problems with respect to contracting out brought to the attention of the committee.

- 2.8.2 3. Such committee shall meet at least one time each month.

E. Notice and Information

2.9 Before the Company finally decides to contract out an item of work as to which it claims the right to contract out, the Union committee members will be notified. Except as provided in Paragraph J below (Shelf Item Procedure), such notice will be given in sufficient time to permit the Union to invoke the expedited procedure described in Paragraph H of this Section, unless emergency situations prevent it. Such notice shall be in writing and shall be sufficient to advise the Union members of the committee of the location, type, scope, duration, and timetable of the work to be performed so that the Union members of the committee can adequately form an opinion as to the reasons for such contracting out. Such notice shall generally contain the information set forth below:

1. Location of work.
2. Type of work:
 - a. Service
 - b. Maintenance
 - c. Major Rebuilds
 - d. New Construction
3. Detailed description of the work.
4. Crafts or occupations involved.
5. Estimated duration of work.
6. Anticipated utilization of bargaining unit forces during the period.
7. Effect on operations if work not completed in timely fashion.

Within ninety (90) days following the effective date of this Agreement, headquarters representatives of the parties shall develop a form notice for the submission of the information described above.

Either the Union members of the committee or the Company members of the committee may convene a prompt meeting of the committee. Should the Union committee members believe discussion to be necessary, they shall so request the Company members in writing within five (5) days (excluding Saturdays, Sundays, and holidays) after receipt of such notice and such a discussion shall be held within three (3) days (excluding Saturdays, Sundays, and holidays) thereafter. The Union members of the committee may include in the meeting the Union representative from the area in which the problem arises. At such meeting, the parties should review in detail the plans for the work to be performed and the reasons for contracting out such work. Upon their request, the Union members of the committee will be provided any and all information in the Company's possession relating to the reasonableness factors set forth in Paragraph C of this Section. Included among the information to be made available to the committee shall be the opportunity to review copies of any relevant proposed contracts with the outside contractor. This information will be kept confidential. The management members of the committee shall give full consideration to any comments or suggestions by the Union members of the committee and to any alternate plans proposed by Union members for the performance of the work by bargaining unit personnel. Except in emergency situations, such discussions, if requested shall take place before any final decision is made as to whether or not such work will be contracted out.

Should the Company committee members fail to give notice as provided above then not later than thirty (30) days from the date of the commencement of the work a grievance relating to such matter may be filed under the grievance and arbitration procedure. Should it be found in the arbitration of a grievance alleging a failure of the Company to provide the notice or information required under this Paragraph E that such notice or information was not provided, that the failure was not due to an emergency requirement, and that such failure deprived the Union of a reasonable opportunity to suggest and discuss practicable alternatives to contracting out, the arbitrator shall have the authority to fashion a remedy, at his/her discretion, that he/she deems appropriate to the circumstances of the particular case. Such remedy, if afforded, may include earnings and benefits to grievants who would have performed the work, if they can be reasonably identified.

2.9.1 F. Remedy for Repeated Notice Violations

Notwithstanding any other provision of this Agreement, where, at a particular plant, it is found that the Company (i) committed violations of Paragraph E of this Section that demonstrate willful conduct in

violation of the notice provision or constitutes a pattern of conduct of repeated violations or (ii) violated a cease and desist order previously issued by the arbitrator in connection with a violation of Paragraph E of this Section, the arbitrator may, as circumstances warrant, fashion a suitable remedy or penalty.

G. Mutual Agreement and Disputes

- 2.10** The committee may resolve the matter by mutually agreeing that the work in question either shall or shall not be contracted out. Any such resolution shall be final and binding but only as to the matter under consideration and shall not affect future determinations under this section. No agreement or any grievance settlement entered into after November 13, 2005, whether or not reached pursuant to this section, which directly or indirectly permits the contracting out of work on an ongoing basis, shall be valid or enforceable unless it is in writing and signed by both the Local Union President and the Plant Manager.
- 2.10.1** If the matter is not resolved, or if no discussion is held, the dispute may be processed further by submitting the matter to the Expedited Procedure set out in Paragraph H of this Section.

H. Expedited Procedure

- 2.11** In the event that either the Union or the Company members of the committee request an expedited resolution of any dispute arising under this Section, except Paragraph J (Shelf Item Procedure), it shall be submitted to the expedited procedure in accordance with the following:
- 2.11.1** 1. In all cases except those involving day-to-day maintenance and repair work and service, the expedited procedure shall be implemented prior to letting a binding contract.
- 2.11.2** 2. Within three (3) days (excluding Saturdays, Sundays and holidays) after either the Union or Company members of the committee determine that the committee cannot resolve the dispute, either party (Chairperson of the Grievance Committee in the case of the Local Union and the Division Manager of Labor Relations in the case of the Company) may advise the other in writing that it is invoking this expedited procedure.
- 2.11.3** 3. An expedited arbitration must be scheduled within three (3) days (excluding Saturdays, Sundays and holidays) of such notice and heard at a hearing commencing within five (5) days (excluding Saturdays, Sundays, and holidays) thereafter. An arbitrator (regular arbitrator if available) shall hear the dispute and, if the arbitrator is not available to hear the dispute within five (5) days, another arbitrator shall be selected by mutual agreement of the Step 3 Representative of the Union and the Step 3 Representative of the Company.
- 2.11.4** 4. The arbitrator must render a decision within forty-eight (48) hours (excluding Saturdays, Sundays and holidays) of the conclusion of the hearing. Such decision shall not be cited as a precedent by either party in any future contracting out disputes
- 2.11.5** 5. Notwithstanding any other provision of this Agreement, any case heard in the Expedited Procedure before the work in dispute was performed may be reopened by the Union in accordance with this paragraph if such work, as actually performed, varied in any substantial respect from the description presented in arbitration except where the difference involved a good faith variance as to the magnitude of the project. The request to reopen the case must be submitted within seven (7) days of the date on which the Union knew or should have known of the variance and shall contain a summary of the ways in which the work as actually performed differed from the description presented in arbitration. As soon as practicable after receipt of a request to reopen, an arbitration hearing date shall be scheduled. In a case reopened pursuant to this paragraph, the arbitrator shall determine whether the work in dispute, as it actually was performed, violated the provisions of Article 2, Section 3 and, if so, the remedy. The prior decision regarding the subject work shall be considered in the determination and given weight in the subsequent dispute, except to the extent that it relied on an erroneous description.

I. Contractors Testifying in Arbitration

- 2.11.6** No testimony offered by an outside contractor may be considered in any proceeding alleging a violation of Section 3 of this Article unless the party calling the contractor provides the other party with a copy of each contractor document to be offered at least forty-eight (48) hours (excluding Saturdays, Sundays and holidays) before the commencement of the hearing.

J. Shelf Item Procedure

- 2.12** 1. No later than June 1, 1994, and except as provided herein, annually thereafter, the Company shall provide the Union members of the committee with a list and description of anticipated ongoing purchases of each item which the Company claims to be a shelf item within the meaning of Paragraph B-2-a of this Section. If the Union members of the committee so request, the list shall not include any item included on a previous list where the status of that item, as a shelf item, has been expressly resolved. Within sixty (60) days of the submission of the list, either the Union members of the committee or the Company members may convene a prompt meeting of the committee to discuss and review the list of items and, if requested, the facts underlying the Company's claim that such items are shelf items.
- 2.12.1** 2. Notwithstanding the provisions of paragraph F of this Section to the contrary, the committee may resolve the matter by mutually agreeing that the item in question either is or is not a shelf item. With respect to any item as to which the Union members of the committee agree with the Company's assertion that it is a shelf item, the Company shall be relieved of any obligation to furnish a contracting out notice until the next review following such agreement and thereafter, if the Union has requested that a resolved item be deleted from the shelf item list in accordance with M.P. 2.12.
- 2.12.2** 3. If the matter is not resolved, any dispute may be processed further by filing, within thirty (30) days of the date of the last discussion, a grievance in Step 3 of the grievance procedure and, thereafter, in accordance with the grievance and arbitration procedure described in Articles 6 and 7. Except as provided in M.P. 2.12.4, such a grievance shall include all items in dispute. However, where a number of items raise the same or similar issues, those items may be grouped in a single class of category.
- 2.12.3** 4. An item which the Company claims to be a shelf item, but which was not included on the list referred to above because no purchase was anticipated, shall be listed and described on a contracting out notice provided to the Union not later than the regularly scheduled meeting of the Contracting Out Committee next following purchase of the item. Thereafter, the parties shall follow the procedure set forth in Paragraphs 2 and 3 above.
- 2.12.4** 5. The Union may file a grievance in accordance with Paragraphs G or H of this Section 3 with respect to any unresolved item of maintenance, repair work or work associated with the fabrication of goods, material or equipment performed outside the plant notwithstanding the inclusion of such item on the shelf item list previously furnished to the Union by the Company, provided such grievance is filed within thirty (30) days of the date on which the Union knew or should have known of the performance of the work.

K. Annual Review

- 2.13** Commencing on or before October 1 of each year, the Company committee members shall meet with the Union committee members for the purpose of (i) reviewing all work whether inside or outside the plant which the Company anticipates may be performed by outside contractors or vendors at some time during the following calendar year, (ii) determining such work which should be performed by bargaining unit employees, and (iii) identifying situations where the elimination of restrictive practices would promote the performance of any such work by bargaining unit employees. The Union committee members shall be entitled in conducting this study to review any current or proposed contracts concerning items of work performed for the Company by outside contractors and vendors and shall keep such information confidential.

- 2.13.1** By no later than November 1 of each year, these Local Union and Company committee members shall jointly submit a written report to the Co-Chairperson of the Negotiating Committee or their designees describing the results of this review. Specifically, the report should list (a) all items of work which the parties agree will be performed by bargaining unit employees during the following year, (b) all items of work which the parties agree should be performed by outside contractors and vendors, and (c) those items on which the parties disagree. If the parties disagree, the report will state the reason for such disagreement.
- 2.13.2** As to individual items of work, the Co-Chairperson(s) of the Negotiating Committee may (a) affirm the plant recommendations, (b) disagree with respect to the plant recommendation as to specific items and either (i) refer their dispute to arbitration under a procedure to be established by the parties or (ii) refer the matters back to the plant without resolution in which event the specific disputes will be handled under the provisions of this section at the time they may arise.

L. District Director USW/Vice President, Labor Relations

- 2.14** It is the intent of the parties that the members of the Joint Plant Contracting Out Committee shall engage in discussion of the problem involved in this field in a good-faith effort to arrive at a mutual understanding so that disputes and grievances can be avoided. If either the Company or the Union members of the committee feel that this is not being done, they may appeal to the District **Director USW and the Company's Vice President, Labor Relations** for review of the complaint about the failure of the committee to properly function. Such appeal shall result in a prompt investigation by the District Director or his/her designated representative and the Company's **Vice President, Labor Relations** or his/her designated representative for such review. This provision should in no way affect the rights of the parties in connection with the processing of any grievance relating to the subject of contracting out.

M. Oversight and Work Subject to Transfer

- 2.15**
- a. Notwithstanding any other provisions of this Section, a Company wide Oversight and Work Subject to Transfer Committee (Committee) will be established comprised of two union members (as designated by the Union Negotiating Committee Chairman) and two company members (as designated by the Company Negotiating Committee Chairman).
 - b. An initial review of all outstanding issues at all plants covered by this Agreement will be conducted within one hundred twenty (120) days of the ratification of this Agreement. After the initial review the Committee will meet at least monthly to address issues that may arise during and after the review. After each meeting the Committee will prepare a written report for the Co-Chairs of the Negotiating Committee including any issues the local parties are unable to resolve, for review by the Co-Chairs.
 - c. The parties recognize that in addition to ongoing concerns regarding the Commitment provisions of this Section there also exists a significant amount of work that is performed inside the plants that is being performed by Outside Entities that may not meet an exception as defined in this Section. The substantial level of work inside the plants that is currently (as of the Effective Date) being performed on a full-time basis pursuant to agreement or by practice by Outside Entities is work that is identified as Work Subject to Transfer (WST). The parties are committed to having all work inside the plants performed by Employees as is required by this Agreement.
 - d. The Company agrees that WST will be transferred to Employees pursuant to the procedures in paragraph f below unless the Company can clearly demonstrate that the work meets both of the exceptions outlined below.
 1. The Outside Entity performing such work has a significant (in the context of the relevant Company facility and the number of Outside Entity employees performing the WST) investment in either equipment, facilities, proprietary technology, or business and administrative infrastructure; and
 2. That to transfer such WST to Employees would, under all the circumstances, subject the Company to a material economic disadvantage measured over time and taking into account the size of the initial required investment (and without comparing wage and benefit costs).

- e. The Company shall provide the members of the Committee with any relevant resources or information including arranging meetings with Outside Entities, in addition the Company will:
 - 1. Identify Outside Entities who have employees performing WST;
 - 2. Examine the type and amount of WST done by each Outside Entity and identify the contract termination dates of any contracts between the Company and such Outside Entities;
 - 3. Identify those Outside Entities which meet the exception outlined in paragraph d above.
 - 4. Develop plans to transfer the WST to Employees. In developing such plans, the objective of the Committee shall be to do so as expeditiously as possible without interfering with the orderly operation of the plant.
- f. After completing the tasks set forth in this Section, the Committee will develop schedules and procedures to transfer any WST which does not meet the exception outlined above to Employees. Progress on such schedules and procedures will be monitored monthly. Should the Union Co-Chair conclude that a dispute cannot be resolved; the dispute may be referred directly to arbitration under the relevant provisions of Article 7 of this Agreement.

**ARTICLE 3
PLANT MANAGEMENT**

Section 1.

- 3.1** Except as limited by the specific provisions of this Agreement, management of the plant and the direction of the working forces, which include the right to hire, layoff, recall, assign positions as well as work, transfer, discharge and or discipline for cause, promote, demote, introduce new and improved methods or facilities, and/or change existing methods or facilities, schedule and require overtime work, and manage the properties and Company assets are vested exclusively with the Company. In the exercise of these functions, the Company shall not discriminate against employees because of membership in or legitimate activity on behalf of the Union.

ARTICLE 4
RESPONSIBILITIES OF THE PARTIES

Section 1.

- 4.1** Each employee, regardless of whether he/she is a member, non-member, officer, grievance committee person, agent or other representative of the Union, shall observe and abide by the terms and conditions of this Agreement. All representatives of Management shall observe and abide by the terms and conditions of this Agreement.

Section 2.

Such grievances may be filed by the Chairperson of the Grievance Committee, or his/her designated representative, in the second step of the grievance procedure within thirty (30) calendar days from the date of the initial joint committee meeting in which the matter was discussed, unless the parties mutually agree to an extension; provided, however, the complaint was filed with the joint committee within thirty (30) days from the date the cause of the complaint occurred, or within thirty (30) calendar days from the time the employee should have known of the occurrence of the event upon which the complaint is based. The Joint Committee shall have no jurisdiction over the filing or processing of grievances. This provision shall not be construed as enlarging or diminishing whatever rights exist in respect of withdrawal of non-- bargaining unit duties from a job in the bargaining unit, provided that where non-bargaining unit duties are placed in a job in the bargaining unit under this provision, such duties may be withdrawn at any time. Management shall, on request, furnish to the Union reasonable information to permit determination of questions of compliance with this provision.

(Union Membership) above and assessments as designated by the International Secretary-Treasurer. With respect to checkoff authorization cards submitted directly to the Company, the Company will deduct initiation fees unless specifically requested not to do so by the International Secretary-Treasurer of the Union after such checkoff authorization cards have become effective. A copy of such notice shall be furnished to such employee's grievance committee person and the Chairperson of the Grievance Committee promptly. During such five-day period, if the employee believes that he/she has been unjustly dealt with, he/she may request and shall be granted during this period, a hearing and statement of his/her offense before the Division Manager of Labor Relations, or his/her designated representative, with the employee's grievance committee person and officers of Union present if the employee so chooses. At such hearing, facts and circumstances shall be disclosed to and by both parties.

If no hearing is requested within the five-day period, the discharge shall become final at the end of such period without further notice or action by the Company, unless the Company shall modify, extend or revoke the suspension or discharge.
- 8.1.4** If the action taken is revoked, the employee shall be returned to his/her regular occupation and be compensated on the basis of an equitable lump sum payment mutually agreed to by the parties or, in the absence of agreement, made whole for the period of his/her suspension or discharge, which shall include providing him/her such earnings and other benefits as he/she would have received except for such suspension or discharge, and offsetting such earnings or other amounts as he/she would not have received except for such suspension or discharge. 9.1 The Standard Hourly Wage Rate for the respective salary grades shall be those set forth below:

PA 1010-27					
Salary Grade	Current	09-02-2018	09-01-2019	08-30-2020	09-05-2021
% increase	----	4.00%	3.50%	3.50%	3.00%
8	\$34.26	\$35.63	\$36.88	\$38.17	\$39.31
9	\$36.48	\$37.94	\$39.27	\$40.64	\$41.86
10	\$40.72	\$42.35	\$43.83	\$45.37	\$46.73

Incumbents in the bargaining unit whose hourly rates exceed the negotiated rate for their salary grade (i.e., “red-circled” employees) will receive an increase in their “red circle” rate equal to the base rate increase of the salary grade they have attained on the date of the scheduled agreed to increase.

Section 2. Application of the Standard Hourly Wage Rate.

- 9.2.1 A. All jobs classified within a salary grade shall be paid the standard hourly wage rate for such grade. There shall be established for each standard hourly wage rate, a corresponding monthly rate equivalent to 173.33 times the standard hourly wage rate.
- 9.2.2 B. Each standard hourly wage rate as established above is recognized as the straight-time regular rate from which to calculate overtime.
- 9.2.3 C. There will be established for each job a time in grade progression and an educational curriculum requirement component for promotions starting at salary grade 8 and progressing to the top salary grade for the job. Employees shall move from the initial salary grade 8 to the top salary grade for their occupation in accordance with the following timeline which includes the agreed to supervisory and technical requirements:

Time In Grade*

Promotion to Grade 8	5 years as an Instrument & Control Tech or equivalent
Promotion to Grade 9	5 years
Promotion to Grade 10	5 years

*Promotion is also based on agreed to educational requirements in supervisory and technical curriculum.

- 9.2.4 If an employee is absent for three or more consecutive weeks (excluding vacation, funeral leave, jury duty, or union business), the promotion will be delayed for that period of absence.
- 9.2.5 If an employee is absent at the time of the scheduled promotion and the absence is long enough to trigger the promotional delay time, the Company may reverse the promotion until the promotional time requirement is achieved. In no case will the earnings paid as a result of the promotion be recouped.

Section 3. Description and Classification of New or Changed Jobs.

- 9.3 A. The Manager of Personnel Services and Union Base Rate Representative shall execute a study to determine a system of evaluation to classify the bargaining unit job. Once completed, the Company shall have one (1) year from that date to classify the job in question. Should such classification produce a higher grade than the agreed-to grade, all retroactive liability shall be dated from the signing of the Agreement.

- 9.3.1 B.** It is the intention of the parties that the system of evaluation will reproduce as closely as possible the agreed-to grades as shown in Seniority Sequences Agreement in Appendix A. Should the parties be unable to reach agreement on a system of evaluation, the Chairman of the Grievance Procedure and the Division Manager of Labor Relations shall develop a method of resolving the differences.
- 9.3.2 C.** If the Company establishes a new job or changes the job content of an existing job, a new job description and classification utilizing the system in place at the time will be assigned to the position on an interim basis. The Union will have a right to challenge the new or changed job through the grievance procedure.

Section 4.

- 9.4** No basis shall exist for an employee, whether paid on an incentive or non-incentive basis, to allege that a wage rate inequity exists, and no grievance on behalf of an employee alleging a wage rate inequity shall be filed or processed during the life of this Agreement. This does not preclude an employee from filing a grievance alleging that he/she is performing and meeting the requirements of a given job but is not receiving the established rate for that job.

Section 5. Sunday Premium

- 9.5** All hours worked by an Employee on Sunday, shall be paid for on the basis of one and one-half times the Employee's Regular Rate of Pay. For the purpose of this Section, Sunday shall be deemed to be the twenty-four (24) hours beginning with the shift change hour nearest to 12:01 a.m. Sunday.

Section 6. Shift Premium

- 9.6** Employees shall receive a shift premium of twenty-five cents (\$0.25) for all hours worked by Employees designated as Shift Workers. Shift Workers are those Employees who are routinely scheduled at least half their shifts on other than the day shift (all eight (8) hour shifts starting between 6:00 a.m. and 9:00 a.m. are defined as the day shift).

Section 7. Allowance for Jury or Witness Duty

- 9.7** An employee who is called for jury service or subpoenaed as a witness shall be excused from work without deduction from salary for the days on which he/she serves. Service, as used herein, includes required reporting for jury or witness duty when summoned, whether or not he/she is used. The employee will present proof that he/she did serve or report as a juror or was subpoenaed and reported as a witness.

Section 8. Inflation Recognition Payment

- 9.8** 1. General Description

The below general description is qualified in its entirety by Paragraphs 2 through 6 below. The purpose of the Inflation Recognition Payment (IRP) is to make quarterly lump-sum payments to Employees if cumulative inflation, as measured over the life of the Basic Labor Agreement, exceeds three percent (3%) per year. At the end of each calendar quarter, the Consumer Price Index (CPI) for the final month of that quarter will be compared to a CPI Threshold (as found in the Table in Paragraph 5 below) which represents what the CPI would be if total inflation since the beginning of the Agreement had averaged three percent (3%) per year. If the actual CPI is higher than the CPI Threshold, a lump sum payment shall be made equal to each full one percent (1.0%) by which the actual CPI is higher than the CPI Threshold, multiplied by the Regular Rate of Pay (overtime rates if applicable) for each position worked by an Employee for all hours actually worked in full calendar weeks in the fiscal quarter (hereafter referred to as "earnings"). Thus, if in a given quarter three percent (3%) annual inflation since the beginning of the Agreement would have produced total inflation of ten percent (10%) and the actual CPI indicates that inflation since the beginning of the contract has been twelve percent (12%) and an Employee had earnings as defined in the paragraph above during the quarter of \$15,000, then that Employee would receive a lump sum payment of two percent (2%) (12% actual inflation minus a 10% CPI Threshold) times \$15,000 or \$300.

2. IRP Payments

- a. Beginning the period ending December 31, 2015, the Company shall, on each Payment Date, make to each Employee an IRP payment equal to:
 - (1) their total earnings as defined above for the Covered Period, multiplied by
 - (2) each full percentage (1.0%), by which the CPI for the Measurement Month exceeds the CPI Threshold for the Measurement Month.
- b. No IRP will be made for any Covered Period unless the CPI for the Measurement Month is greater than the CPI Threshold; in the event the CPI is lower than the CPI Threshold there shall be no recoupment of any kind. The IRP shall be a lump-sum payment and shall not be part of the Employee's Base Rate of Pay or used in the calculation of any other pay, allowance or benefit.

3. Definitions

- a. CPI shall mean the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W), U.S. City Average, All Items, Not Seasonally Adjusted (1982-84=100) as published by the Bureau of Labor Statistics. If the Consumer Price Index in its present form and on the same basis as the last Index published prior to June 2015 becomes unavailable, this Section shall be adjusted to produce as nearly as possible the same result as would Agreements between USW and ArcelorMittal Final as of August 30, 2015 have been achieved using the Index in its present form.
- b. Payment Date shall be the forty-fifth (45th) day after the last day of the Measurement Month.
- c. Measurement Month shall be the last month of a Covered Period.
- d. Covered Period(s) shall be as shown in Paragraph 5 below.
- e. CPI Threshold(s) shall be as shown in Paragraph 5 below, based on the formula in Paragraph 6 below.

4. Example:

Covered Period	10-01-16 – 12-31-16
Measurement Month	December 2016
Hypothetical CPI in Measurement Month	253.004
CPI Threshold for the Covered Period	248.043
The amount, of full percentage point(s), by which the CPI for the Measurement Month exceeds the CPI Threshold for the Covered Period	$((253.004 - 248.043)/248.043) = 2.0\%$
Earnings in Covered Period	\$15,000
IRP Payment	$(\$15000 \times 2.0\%) = \300.00

5. Covered Periods and CPI Thresholds

Covered Period	CPI Threshold
07-01-15 – 09-30-15	None
10-01-15 – 12-31-15	240.818
01-01-16 – 03-31-16	240.818
04-01-16 – 06-30-16	240.818
07-01-16 – 09-30-16	248.043
10-01-16 – 12-31-16	248.043

Covered Period	CPI Threshold
01-01-17 – 03-31-17	248.043
04-01-17 – 06-30-17	248.043
07-01-17 – 09-30-17	255.484
10-01-17 – 12-31-17	255.484
01-01-18 – 03-31-18	255.484
04-01-18 – 06-30-18	255.484
07-01-18 – 08-31-18	263.148

6. Formula to Calculate CPI Threshold

The CPI Threshold shown in the Table above is the CPI for the month of June, 2015 multiplied by 1.03 per year as expressed in the following formula:

$CPI-W \text{ for June } 2015 \times (1.03)^n$

Where n is the number of Covered Years from the first calendar year of 2015 to the Covered Year in which the calculation is made.

Section 9. Profit Sharing Plan

9.9 1. Introduction

The parties agree to establish a profit sharing plan (the Plan).

2. Level of Payout

The Company agrees that it will create a profit sharing pool (the Pool) consisting of 7.5% of the Company's Quarterly Profits, as defined below, and to distribute the Pool within forty-five (45) days of the end of each fiscal quarter, in the manner described below. The fourth (4th) quarter payment will be distributed within fifteen (15) days following the date of the auditor's opinion of the Company's annual audited financial statements, which may include an adjustment for the correction of errors in prior quarters.

3. Calculation of Profits

For the purposes of this Plan,

- a. Profits shall be defined as Earnings Before Interest and Taxes of the Company, calculated on a consolidated basis in accordance with United States Generally Accepted Accounting Principles (GAAP), with the following exclusions:
 - (1) onerous contracts, income or loss related to any charges or credits (whether or not identified as special credits or charges) for unusual, infrequently occurring or extraordinary items as defined by GAAP, including credits or charges for plant closures, business dispositions and asset sales that are not normal operating charges or credits of the Company;
 - (2) any cost or expense associated with the Benefit Trust or other similar vehicle;
 - (3) any cost or expense associated with the Plan or any other profit sharing or similar plan for any of the Company's employees;
 - (4) any expense attributable to the allocation or contribution of stock to Company employees;
 - (5) any payments, fees or other expenses that are not in the normal course of business paid directly or indirectly to any person who directly or indirectly owns or controls any equity or equity like interest in the Company; and

(6) profits from Excluded Entities as defined in Article One, Section A – Parties to the Agreement.

- b. All transactions between the Company and the Parent or any of its Affiliates shall be conducted on an arm's length basis on commercially reasonable terms not less favorable to the Company than those that could be obtained from an unrelated third party.

4. Individual Entitlement

The Pool will be divided among all Employees (Participants) on the basis of the Hours (as defined below) of each such Participant in the calendar weeks within each fiscal quarter.

- a. The award for profit sharing, if any, shall be equivalent to the hourly rate paid under the P&M Profit Sharing Plan in any quarter times **a maximum of 48** hours for each week in the quarter, less any full pay periods of salary continuation. **Hours shall include the following: hours worked (including straight time and overtime hours), vacation and holiday hours at the rate of eight (8) hours for each holiday or day of vacation; hours shall also include those hours not scheduled less than forty (40) due to a scheduled reduced Work Week; hours on Union Business; and hours, at the rate of eight (8) hours a day, while receiving Workers' Compensation benefits (based on the number of days absent from work while receiving such benefits).** Any time off for leave of absence shall be excluded under this calculation
- b. Any payments made to a Participant pursuant to this Plan shall not be included in the Participant's earnings for purposes of determining any other pay, benefit or allowance of the Participant.

5. Administration of the Plan

- a. The Plan will be administered by the Company in accordance with its terms and the costs of administration shall be the responsibility of the Company. Upon determination of each Quarterly Profit calculation, such calculation shall be forwarded to the Chair of the Union Negotiating Committee accompanied by a Certificate of Officer signed by the Chief Financial Officer of the Company, providing a detailed description of any adjustments made to Earnings Before Income and Taxes and stating that Profit was determined in accordance with GAAP and that Quarterly Profit was calculated in accordance with this Section.
- b. The Union, through the Chair of its Negotiating Committee or his/her designee, shall have the right to review and audit any information, calculation or other matters concerning the Plan. The Company shall provide the Union with any information reasonably requested in connection with its review. The reasonable actual costs incurred by the Union in connection with any such audit shall be paid from the Pool and deducted from the amount otherwise available under the Pool for distribution to Employees.
- c. In the event that a discrepancy exists between the Company's Profit Sharing calculation and the results obtained by the Union's review, the Chairs of the Union and Company Negotiating Committees shall attempt to reach an agreement regarding the discrepancy. In the event that they cannot resolve the dispute, either party may submit such dispute to final and binding arbitration under the grievance procedure provided in this Agreement.

6. Prompt Payment

Notwithstanding Paragraph 5, the Company shall comply with the requirements of Paragraphs 2 through 4 based on its interpretation of the appropriate payout. If the process described in Paragraph 5 results in a requirement for an additional payout, said payout shall be made no more than fourteen (14) days after the date of the agreed upon resolution or issuance of the arbitrator's decision.

7. Summary Description

The parties will jointly develop a description of the calculations used to derive profit sharing payments under the Plan for each quarter and distribute it to each Participant.

9.10 Section 10. Incentive Plans

The Company, at its discretion, may establish new incentives to cover a certain job or jobs within the bargaining unit. The rules, terms, and conditions of such incentive plans shall be mutually agreed to by the Company and Union.

**ARTICLE 10

C. Normal Work Pattern

10.1.3 1. The normal work pattern shall be five (5) consecutive workdays beginning on the first day of any 7-consecutive-day period.

10.1.4 2. A work pattern of less or more than five (5) workdays in the 7-consecutive-day period shall not be considered as deviating from the normal work pattern provided the workdays are consecutive.

10.1.5 3. In the event of a flex-time schedule agreed to by the Company and the employee(s), **Section 10.1.2, Section 10.1.3 and Section 10.1.4** above will not be applicable.

D. Schedules

10.1.6 1. All employees shall be scheduled on the basis of the normal work pattern except where, (a) such schedules would require the payment of overtime, (b) deviations from the normal work pattern are necessary because of business conditions, breakdowns, or matters beyond the control of the Company; (c) schedules deviating from the normal work pattern are established by agreement between the Company and the Union; or (d) flex-time schedules are utilized. Management agrees that it will, to the greatest degree practicable, refrain from scheduling employees in excess of 8 hours per day or on the afternoon and night shifts.

10.1.7 2. Schedules showing employees' workdays shall be posted or otherwise made known to employees (i.e. a standing verbal schedule), in accordance with prevailing practices, but not later than Thursday of the week preceding the calendar week in which the schedule becomes effective unless otherwise provided by local agreement.

- 10.3.1** An employee reporting less than thirty (30) minutes late shall be assigned to work in his/her regular occupation. Where an employee reports more than thirty (30) minutes late, the supervisor may (a) assign him/her to work in his/her regular occupation, or (b) assign him/her to a job in any other occupation in which the supervisor deems work available, in which case he/she shall receive the rate for the occupation assigned as provided in Section 2. In the case of a relief job, if an employee should report more than sixty (60) minutes late, the person held over shall have the option to complete the turn and the late employee sent home or allow the late employee to work the remainder of the turn. Notwithstanding the above, in the event a flex-time schedule is being utilized, the agreement concerning that schedule shall apply.

In the event of an absence, the Company reserves the right to either secure a replacement, in accordance with the provisions of Seniority - Article 13, and if the schedule cannot be so filled, the Company shall call out a replacement, unless the work to be accomplished by, or assigned to an individual or the work group, where one exists, can be modified so that it will be within the capacity of such replacement or short work group. The Company shall not be required to fill the vacancy if, in its opinion, the work can be postponed.

Section 5.

- 10.5** A. Call-Out Pay.
An employee who has already left the plant after completion of his/her scheduled shift and who is recalled for work shall be required to work a minimum of four (4) hours unless the employee refuses a work assignment or unless some other minimum number of hours of work is agreed to by the local parties.

The employee must claim pay for telephone time within one (1) week of such time accrued on the telephone per payroll week.
- 10.5.2** Pager pay received pursuant to the above will not be used to calculate overtime liability, except that any unworked holiday pay entitlement will not be reduced by any amount of such pager pay or pay for time spent on the telephone.

Section 6. Funeral Leave

- 10.6** 1. In the event of the death of any of the relatives listed below, an Employee, upon request, will be excused and paid for scheduled shifts as detailed below, which fall within a ten (10) day period, provided however that one such calendar day shall include the day of the service.

**ARTICLE 11
OVERTIME AND HOLIDAYS**

Section 1. Purpose.

11.1 This Article shall not be construed as a guarantee of hours of work per day or per week, or a guarantee of days of work per week.

Section 2. Definition of Terms.

11.2 A. The payroll week shall consist of seven (7) consecutive days beginning at 12:01 A.M. Sunday or at the turn-changing hour nearest to that time.

11.2.1 B. The workday for the purpose of this Article is the twenty-four (24) hour period beginning with the time the employee begins work, except that a tardy employee's workday shall begin at the time it would have begun had he/she not been tardy.

11.2.2 C. The regular rate of pay, as the term is used in Section 3 below, shall mean the hourly rate which the employee would have received for the work had it been performed during the non-overtime hours; for employees on an incentive, tonnage, or piecework basis, such regular rate of pay shall be the average straight-time hourly earnings as computed in accordance with existing practices.

Section 3. Conditions Under Which Overtime Rates Shall Be Paid.

11.3 A. Overtime at the rate of one and one-half times the regular rate of pay shall be paid for:

11.3.1 1. Hours worked in excess of eight (8) hours in a workday;

11.3.2 2. Hours worked in excess of forty (40) hours in a payroll week;

11.3.3 3. Hours worked on the sixth or seventh workday in a payroll week during which work was performed on five (5) other workdays; it being understood that for the purpose of determining whether work was performed on five (5) other workdays, any day on which an employee reports as scheduled and is prevented through no fault of his/her own from working his/her regularly scheduled eight (8) hour turn shall be counted as a day on which work was performed.

11.3.4 4. Hours worked on the sixth or seventh workday of a 7-consecutive-day period during which the first five (5) days were worked, whether or not all of such days fall within the same payroll week, except when worked pursuant to schedules mutually agreed to as provided for in Subsection "D" of Section 1 of Article 10--Hours of Work; provided, however, that no overtime will be due under such circumstances unless the employee shall notify his/her foreman of a claim for overtime within a period of two (2) weeks after such sixth or seventh day is worked; and provided further that on shift changes the 7-consecutive-day period of one hundred sixty-eight (168) consecutive hours may become one hundred fifty-two (152) consecutive hours depending upon the change in the shift. For the purposes of this Section 3-A- (4) all working schedules now normally used in any department of the plant shall be deemed to have been approved by the grievance committee person of the department involved. Such approval may be withdrawn by the grievance committee person of the department involved by giving sixty (60) days prior written notice thereof to the Company.

11.3.5 5. Hours worked on what would otherwise have been the sixth or seventh workday in the schedule on which an employee was scheduled to commence work, should changes be made in schedules contrary to the provisions of Article 10-1, D-(3) so that an employee is laid off on any day within the five (5) scheduled days and is required to work on what would have been the sixth or seventh day workday in the schedule on which he/she was scheduled to commence work.

11.3.6 In the event of a flex-time schedule, paragraphs (1), (4), and (5) may not be applicable.

Section 4.

11.4 For all hours worked by an employee on any of the holidays specified below, overtime shall be paid at the rate of two and one-half times the employee's regular rate of pay.

11.4.1 The holidays specified are January 1, Martin Luther King Jr.'s Birthday, Good Friday, Memorial Day which shall be the last Monday in May, July 4, Labor Day, Thanksgiving Day, the day after Thanksgiving Day, the day before Christmas Day, and Christmas Day. The holiday shall be the twenty-four (24) hour period beginning at the turn-changing hour nearest to 12:01 A.M. of the holiday. In a department where no work will be performed on a holiday falling on Saturday, the Company may designate the preceding Friday as the holiday. In order to so designate such holidays, the Company must give notice to affected employees by December 1 of the year preceding the holiday. After such date, Saturday holidays may be moved to Friday only with the agreement of the grievance committee person. Such agreement shall not be unreasonably withheld. If the calendar holiday is Sunday, for the purposes of this Agreement, the holiday shall be the following Monday.

Section 5. Pay for Holidays Not Worked.

11.5 An eligible employee who does not work on a Holiday listed in Section 5 shall be paid for such Holiday on the basis of whichever of the following is applicable:

11.5.1 A. By not deducting a day's pay from his/her applicable biweekly salary rate because of his/her not working on the Holiday, if the Holiday occurs on a day which was within his/her normal 5-day-per-week work schedule, or

11.5.2 B. By payment of an additional day's pay, if such Holiday occurs on a day outside of his/her normal 5-day-per-week work schedule for which he/she is not being compensated by his/her applicable salary rate. A day's pay shall be eight times the hourly equivalent of his/her biweekly salary rate as computed in accordance with average straight-time earnings (including applicable incentive earnings but excluding shift differentials and Sunday and overtime premiums).

11.5.3 If an eligible employee who is scheduled to work on any such Holiday fails to report or perform his/her scheduled or assigned work, he/she shall become ineligible for pay for the unworked Holiday unless he/she has failed to report or perform such work because of sickness or because of death in the immediate family (as defined in Article 10—Section 6) or because of similar good cause.

11.5.4 When Holiday occurs during an eligible employee's scheduled vacation period, the employee, at the Company's discretion will receive either: (a) compensatory day off which may be taken with the vacation or at another mutually satisfactory time, or (b) an extra day's pay. This shall not apply to (1) an employee whose vacation has been scheduled prior to his/her layoff and who thereafter is laid off and takes his/her vacation as scheduled, or (2) an employee who is not at work at the time his/her vacation is scheduled, but who thereafter returns to work and then is absent from work during a Holiday week because of his/her scheduled vacation. An employee who is not at work at the time of scheduling his/her vacation and is not working at the time his/her vacation commences is not eligible for Holiday pay for a Holiday occurring during his/her vacation within the meaning of Sub-Section 5.2 B of this Section

11.5.5 For the purpose of determining whether an employee has worked in excess of 40 hours in a payroll week, if a Holiday occurs on one of an employee's normally scheduled days of work, such employee shall be deemed to have worked 8 hours on the Holiday whether or not he/she actually worked and regardless of whether the Holiday was scheduled as a day of work or rest.

11.5.6 When no work was performed in the payroll period preceding the holiday pay period, the holiday pay period shall be used. Holiday allowance shall be adjusted by an amount per hour to reflect any general wage increase in effect at the time of such holiday, but not in effect in the period used for calculating holiday allowance.

11.5.7 As used in this Section, an eligible employee is one who:

11.5.7.1 1. Has completed thirty (30) turns of work since his/her last hire;

- 11.5.7.2** 2. performs work or is on vacation in the payroll period in which the holiday occurs; or if he/she is laid off for such payroll period, performs work or is on vacation in both the payroll period preceding and the payroll period following the payroll period in which the holiday occurs; and
- 11.5.7.3** 3. works as scheduled or assigned both on his/her last scheduled workday prior to and on his/her first scheduled workday following the holiday unless he/she has failed to so work because of sickness or because of death in the immediate family or because of similar good cause.

11.5.8 A part-time employee who is otherwise eligible shall receive pay for a holiday not worked on the basis of his/her average hourly earnings over the last pay period preceding the one in which the holiday is observed, times 8 (including applicable incentive earnings but excluding shift differentials, and Sunday and overtime premiums).

11.5.9 Where the Company is paying on the basis of weekly pay periods, the pay period for purposes of eligibility under this Section shall include the weekly pay period in which the holiday occurs and the next preceding weekly pay period; and holiday allowance shall be calculated on the basis of the two (2) weekly pay periods next preceding the weekly pay period in which the holiday occurs.

11.5.10 If an eligible employee performs work on a holiday, but works less than eight (8) hours, he/she shall be entitled to the benefits of this Section to the extent that the number of hours worked by him on the holiday is less than eight (8). This Section applies in addition to the provisions of Section 5 of Article 10, where applicable.

Section 6. Nonduplication.

11.6 Payment of overtime rates shall not be duplicated for the same hours worked, but the higher of the applicable rates shall be used. The Union and the Company agree that their mutual objective is to afford maximum opportunity to the employees to obtain their vacations and to attain maximum production.

The vacation allowance due an employee shall be computed as provided in Section 5 above.

ARTICLE 13
SENIORITY

- 13** The parties agree that promotional opportunity, job security when a decrease of forces takes place, and recalls from layoffs should merit consideration in proportion to length of continuous service. It is also recognized that efficient operation of the plant greatly depends on the ability of the individual to perform his/her job.

Section 1. Definition of Seniority

- 13.1** Employees within the bargaining unit shall be given consideration in respect to promotional opportunity for positions not excluded from said unit, job security upon a decrease of forces, and preference upon reinstatement after layoff, in accord with their seniority status relative to one another. "Seniority" as used herein shall include the following factors:

13.1.1 A. Plant continuous length of service, except where by agreement some other measure is utilized;

13.1.2 B. Ability to perform the work

13.1.3 C. Physical fitness

- 13.1.4** It is understood and agreed that where factors "B" and "C" are relatively equal, length of continuous service as hereinafter made applicable shall govern. In the evaluation of "B" and "C", Management shall be the judge, provided that this will not be used for purposes of discrimination against any member of the Union. If objection is raised to Management's evaluation, and where personnel records have not established a differential in abilities of two (2) employees, a reasonable trial period of not less than thirty (30) days shall be allowed the employee with the longest continuous-service record as hereinafter provided.

Section 2. Personnel Records (excluding medical records).

- 13.2** Records as to each employee's service with the Company shall be maintained in the department in which he/she is employed, and such records shall include matter relative to an employee's work performance and length of service. Each employee shall at all times have access to his/her departmental personnel record and in case of those employees whose departmental record indicates unsatisfactory workmanship, the manager of the department or his/her assistant will call the employee in and acquaint him/her with the reasons for an unsatisfactory rating.

- 13.2.1** The managers of departments will, when necessary, continue the program of acquainting the employee with written notices of discipline or warning to stop practices infringing on regulations or improper workmanship. In all cases where (1) year elapses after a violation requiring written notice, and the employee involved does not require retraining, such violation will not influence the employees record.

- 13.2.2** These records of the employee's individual performance have much influence on the "Ability to perform the work" clause in Section 1 of this Article, but in no case will the Company contend inability to perform the work when the procedure as outlined in this Section has not been strictly complied with. Should any dispute arise over the accuracy of the personnel record, it shall be disposed of through the normal grievance procedure.

13.3 Section 3. Seniority Sequences

- 13.3.1** Seniority sequences are intended to provide definite lines for promotion and demotion, insofar as practicable, in accordance with local work relationships, supervisory groupings and geographic locations, and such sequences shall be set up in diagram form. The company shall maintain sole right of assignment within each seniority unit box (i.e. occupation) regardless of pay grades. Where applicable, it shall be a specific objective to establish such promotional sequences, insofar as possible, in such a manner that each sequence step will provide opportunity for employees to become acquainted with and to prepare themselves for the requirements of the job above. The arrangement of occupations within a promotional sequence shall be in ascending order of total average earnings on the jobs concerned. The arrangement of employees within each box (i.e. occupation) shall be by plant date within each pay grade. Where job earnings are

approximately equal, the job generally regarded as most closely related to the next higher job shall be the higher in the promotional sequence arrangement.

13.3.2 Promotional sequence diagram, together with a list of employees in the sequence and their relative relationship therein, shall be posted upon the bulletin board in the department, and such sequence diagram shall remain in effect for the life of this Agreement unless changed by mutual agreement in writing between the manager of the department and the grievance committee person and approved by the Union **Step 3** Representative and the Division Manager of Labor Relations or as hereafter provided in this Section. The Union shall be furnished two (2) copies of such list.

13.3.3 The lists of employee relationships shall be kept up-to-date by the departmental management and made available for review upon request (which shall not be unreasonably denied) by the Area Grievance Committee person. A copy of such lists which is furnished to the Union in accordance with Section 3 of this Article shall be provided him/her once each six (6) months. Where a new department is established, such sequence diagrams and lists shall be established under the principles set forth above. Where new jobs are installed, the sequence diagrams and lists referred to in this Section shall be revised under the principles set forth above. Such diagrams and lists shall take effect at the time of posting, subject to being revised under the grievance procedure of Article 6 hereof, beginning with **Step 1**, by a complaint filed within thirty (30) days from the date of posting, provided, however, that typographical errors first occurring subsequent to the date of this Agreement will not prejudice the seniority rights of the individual employee in the future.

Section 4. Permanent Vacancies and Transfer Rights

13.4 When a permanent vacancy develops, or is expected to develop, Management shall post notice of such vacancy or expected vacancy for such period of time and in such manner as may be appropriate at the plant for members of the P & M group established as Technicians, Instrument and Control, Standard. Such vacancy shall be posted for twelve (12) calendar days beginning on a Monday in locations in the plant where notices to employees are generally posted. An employee desiring to bid for such vacancy shall do so in writing on a form furnished by the Company. After the end of such twelve-(12) day period, the Company shall fill the vacancy, if it continues to exist, from the bidders who apply therefore pursuant to the posting procedure. The Company will review the files of all future bidders for the ET sequence, which may include an interview with the bidder to elaborate on some portion of his/her record. The Company may reject a bidder for cause. The employee(s) selected to fill the vacancy(ies) and his/her plant continuous service date shall be posted within seven (7) days following assignment. If no qualified candidates are available/selected, Management shall hire from outside the Company.

13.4.1 The grievance committee person and the manager of the department involved may agree to provide for the filling of vacancies otherwise than as set forth in this Article. Any such agreement, to be valid and enforceable, must not unnecessarily restrict the transfer and promotional rights provided by this Article, be in writing and signed by the department manager and the grievance committee person involved and approved in writing by the Union Step 3 Representative and the Division Manager of Labor Relations. Any such local seniority agreement in effect on August 31, 2012 shall continue in force, provisions to the contrary therein notwithstanding, unless either the grievance committee person or the manager of the department, with the approval, respectively, of the Union Step 3 Representative or the Division Manager of Labor Relations, notifies the other in writing at the commencement of, or during local negotiations, for the succeeding Agreement of his/her desire to terminate such local seniority agreement.

13.4.2 If an employee accepts transfer outside this unit, his/her continuous service in the sequence from which he/she transfers will be canceled 30 days after such transfer, provided however, that during such 30-day period such employee may voluntarily return to the unit from which he/she transferred or Management may return him/her to that unit because he/she cannot fulfill the requirements of the job. In the event an employee accepts transfer under this Section 4, he/she may not again apply for transfer during the period of one (1) year after such transfer. In the event an employee refuses a transfer after applying therefor or voluntarily returns to the unit from which he/she transferred, he/she may not again apply for transfer during the period of six (6) months after such event.

13.4.3 Notwithstanding the above, should an employee permanently transfer from his/her sequence following the elimination of his/her job or previous sequence, and work in such new sequence beyond 30 turns (excluding training turns), such employee may return, if still qualified, to his/her previous job or sequence should such job or sequence be reinstated as the result of a grievance settlement or arbitration decision. Such election to

return to the reinstated job or sequence must be made within thirty (30) days of such grievance settlement or receipt of such arbitration decision. No further retroactive seniority adjustments in the new job and/or sequence will be required as a result of the employee's return to his/her original sequence. Any openings created as a direct result of this provision shall be filled in accordance with the language of this section.

Section 5. Other Factors Affecting Employment

- 13.5** Employees on leave of absence, employees who are temporarily unable to promote or inactive because of established bona fide illness, or disciplined with time off shall, upon return, resume their former position in the sequence in accordance with the provisions of this Agreement.

Section 6. Force and Crew Reductions.

- 13.6** When it becomes necessary to reduce operations, unless otherwise mutually agreed between the manager of the department and the grievance committee person of the Union for the area involved, demotions and other reductions in forces shall be made in descending job sequence order starting with the highest affected job and with the employee on such job having the least length of plant continuous service. Reductions within an occupation shall be by plant continuous length of service within each pay grade.

- 13.6.1** Nothing in this Section 8 shall be construed to guarantee any individual employee any number of hours of work in a week or as determining the size of crews to be scheduled.

Section 7. Recalls or Step –Ups in Sequences.

- 13.7** Recall to or step-up in the sequence shall be made in the reverse order of layoff or other reduction in forces so that the same experienced people shall return to jobs in the same positions relative to one another that existed prior to the reductions.

- 13.7.1** In the event an employee laid off from his/her parent department and not currently working in the plant, would be recalled, in accordance with the above, to fill a temporary vacancy in his/her established sequence, such employee shall have the opportunity to waive such recall and remain on layoff. Should an employee waive recall, the remaining vacancy will be filled in accordance with this Article.

Section 8. Probationary Employees

- 13.8** All newly hired employees will be regarded as probationary employees for the first one thousand (1,000) hours of actual work of their employment and will receive no continuous-service credit during such period. During this period of probationary employment, employees may be laid off or discharged as exclusively determined by the Management, provided that such layoffs and discharges will not be used for purposes of discrimination because of race, color, religious creed, national origin, or sex or because of membership in the Union. After one thousand (1,000) hours of actual work, the employee shall receive plant continuous-service credit from his/her hiring date. If a probationary employee is terminated because of lack of work and is rehired within two weeks of his/her last termination from employment at the plant, his/her continuous service date will be the date of hire for his/her prior employment.

Section 9. Calculation of Continuous Service.

- 13.9** Continuous service shall be calculated from the date of first employment or re-employment following a break in continuous service in accordance with the following provisions:

- 13.9.1 A.** There shall be no deduction for any time lost which does not constitute a break in continuous service.

- 13.9.2 B.** Continuity of service and the employment relationship shall be broken and terminated when:

- 13.9.2.1** 1. An employee quits or is discharged for cause.

- 13.9.2.2** 2. An employee who has been laid off fails to report for work within five (5) calendar days (excluding Sundays and holidays) after receipt of a certified mail notice sent to his/her last known address appearing on Company records, or within seven (7) calendar days (excluding Sundays and holidays) after the mailing of such notice, whichever is earlier.

- 13.9.2.3 3. An employee fails to report for work at the termination of a leave of absence or an extension thereof.
- 13.9.2.4 4. An employee is absent from work for a full pay period without notifying the Company except in cases of emergency or other justifiable reasons preventing the employee from properly notifying.
- 13.9.2.5 5. An employee is absent for a period exceeding that for which statutory compensation was payable due to and injury on duty, except when in the opinion of the Company's Medical Director this period should be extended.
- 13.9.2.6 6. An employee is terminated in accordance with Article 16 - Severance Allowance.
- 13.9.2.7 7. An employee is absent in excess of the period during which continuous service can accumulate subject to the provisions of paragraph 5 above, if an employee shall be absent because of layoff and/or physical disability, he/she shall continue to accumulate continuous service during such absence for two (2) years, and for an additional period equal to (a) three (3) years or (b) the excess, if any, of his/her length of continuous service at commencement of such absence over two (2) years, whichever is less. Any accumulation in excess of two (2) years during such absence shall be counted, however, only for purposes of applying "seniority" provisions of this agreement and shall not be counted for any other purpose under this or any other agreement(s) including benefits agreements between the Company and the Union.

Section 10. Seniority with Relation to Supervisory Occupations.

13.10.1 Any supervisor shall not perform work on a job normally performed by an employee in the bargaining unit; provided, however, this provision shall not be construed to prohibit supervisors from performing the following types of work:

13.10.2A. Experimental work;

13.10.3B. Demonstration work performed for the purpose of instructing and training employees;

13.10.4C. Work required of the supervisors by emergency conditions which if not performed might result in interference with operations, bodily injury, or loss or damage to material or equipment; and

13.10.4D. Work which, under the circumstances then existing, it would be unreasonable to assign to a bargaining unit employee and which is negligible in amount.

13.10.5 Work which is incidental to supervisory duties on a job normally performed by a supervisor, even though similar duties found in jobs in the bargaining unit, shall not be affected by this provision.

13.10.6 If a supervisor performs work in violation of this Section 10 and the employee who otherwise would have performed this can reasonably be identified, the Company shall pay such employee the applicable standard hourly wage rate for the time involved or for four (4) hours, whichever is greater.

Section 11. Leaves of Absence

13.11 An employee who is entitled to reemployment at the Plant under the provisions of this Section and who applies for such reemployment and who desires to pursue a course of study in accordance with the laws of the United States granting him/her such opportunity shall be granted a leave of absence for such purpose. An employee who desires such a leave of absence after returning to his/her employment with the Company shall have it granted only if he/she notifies the Company in writing, within one year after his/her reemployment, of his/her intention to pursue such a course of study. Such leave of absence shall not constitute a break in his/her length of service and the period of such leave shall be included in his/her length of continuous service, if such employee shall report promptly for reemployment after the completion or termination of such course of study and if he/she shall at least once each year notify the Management and the Union in writing of his/her intention to return to work at the Plant at the completion or termination of such course of study.

Section 12. Leave of Absence for Employment with the Union

1. Leaves of absence for the purpose of accepting positions with the International or Local Unions shall be made available to a reasonable number of Employees. Employees who intend to apply for such leaves shall give the Company adequate notice to enable it to fill the jobs vacated.
2. Leaves of absence for the purpose of accepting or continuing in a temporary position with the International shall be for periods of six (6) months and shall be extended upon request; provided, however, in no event shall an Employee be entitled under this provision to a leave of absence exceeding two (2) continuous years.
3. Leaves of absence for the purpose of accepting permanent positions with the International Union shall be for a period concurrent with the individual's permanent employment with the International Union. When an individual is made a permanent employee of the International Union (by completing his/her probationary period), s/he shall, from that point forward, retain his/her leave of absence status with the Company but shall not receive any Covered Service or hourly contributions under the Steelworkers Pension Trust. Such individual shall accumulate Continuous Service for all other purposes under the Agreement and local agreements thereunder; provided that s/he shall not be entitled to actually receive any contractual benefits during the period of the leave of absence.
4. Leaves of absence for the purpose of accepting positions with the Local Unions shall be for a period not in excess of three (3) years and may be renewed for further periods of three (3) years each.

Except as set forth above in Paragraph 3, Continuous Service shall continue to accrue and shall not be broken by a leave of absence under this Section.

Section 13. Preferential Seniority

- 13.13** The grievance committee person provided for in Article 6 hereof shall, for their respective terms of office, have top seniority rights in their respective departments (or if no work is available in the grievance committeeman's department, in the area which he represents) for the purpose of layoffs in connection with reduction of working forces therein; provided, however, that such grievance committee person shall not be retained in the employ of the Company unless work which they can perform is available in such area.

Section 14. Part Time Employees

- 13.14** A part-time employee is an employee who by prior and fixed arrangement is not available for work on the prevailing schedules applied in the department to which he/she is attached. Such an employee, during any period of part-time employment, shall accrue plant continuous-service credit on the basis of one (1) year's credit for each 2,080 hours worked. Part-time employees will not be permitted to enter sequences to fill permanent vacancies. Should a part-time employee become available for full-time employment he/she shall then be allowed any sequential standing he/she previously held in the sequence.

Section 15. Staffing of New Facilities.

- 13.15 A.** In the staffing of jobs on new facilities in existing plants, the jobs shall be filled by qualified employees who apply for such jobs in the order of plant length of service from the following categories in the following order but subject to paragraph "B" below:
- 13.15.1** 1. Employees displaced from any facilities being replaced in the plant by the new facilities.
 - 13.15.2** 2. Employees being displaced as the result of the installation of the new facilities.
 - 13.15.3** 3. Employees presently employed on like facilities in the plant.
 - 13.15.4** 4. Employees presently on layoff from like facilities in the plant.
 - 13.15.5** 5. All other employees in the plant provided that if sufficient qualified applicants from this source are not available, Management shall fill the remaining vacancies as it deems appropriate.

13.15.6 When a new facility is to be staffed, the Company and the International Representative of the Union assigned to the plant and the grievance committee person for the department or departments involved shall meet for the purpose of discussing whether sequential standing or plant length of service is to be considered in connection with the above categories. In the event they do not agree within fifteen (15) days, the Company shall advise the Union in writing of the service factor it deems appropriate in the particular situation and the Union may within fifteen (15) days from such notification file a grievance alleging that such determination is not appropriate in the particular situation. Such grievance shall set forth the specific claim of the Union as to the appropriate service factor and shall be promptly submitted to the permanent arbitrator for determination and the arbitrator shall promptly render his decision.

13.15.7B. In determining whether or not an employee is qualified pursuant to paragraph A above, an applicant otherwise eligible shall have:

13.15.7.1 1. The necessary qualifications for performing the job.

13.15.7.2 2. The ability to absorb such training for the job as is to be offered and is necessary to enable the employee to perform the job satisfactorily.

13.15.7.3 3. The necessary qualifications to progress in the promotional sequence involved to the next higher job to the extent that Management needs employees for such progression. In determining the necessary qualifications to advance in the promotional sequence involved, the normal experience acquired by employees in such sequence shall be taken into consideration. However, it is recognized that Management can require that a sufficient number of occupants of each job in a promotional sequence be available to assure an adequate number of qualified replacements for the next higher job.

13.15.8C. An applicant who is disqualified under paragraph B of this Section 15 above shall have the right to apply for another job for which he believes he/she can qualify.

13.15.9D. When new facilities are to be staffed pursuant to this Section 15 the local parties as set forth above shall meet and may establish, in appropriate circumstances, rules for allowing an employee not placed initially a second opportunity to elect transfer to the new facility consistent with its efficient operation. In establishing such rules, the local parties shall consider matters such as

13.15.9.1 1. The job level in the promotional sequence in the new department up to which an employee will be allowed a second opportunity to elect transfer.

13.15.9.2 2. The sequential standing, if any, to be established for such employee in the new department.

13.15.9.3 3. The date on which the second opportunity must be exercised following start-up of the new facility, but not more than three (3) years thereafter. (In determining such date, the parties shall give due consideration to possible management abandonment of the old facility or an extended period of its nonuse).

In lieu of or in addition to the forgoing, the local parties may develop a method for filling permanent vacancies in the new facility between the time of initial staffing and the final election to transfer.

13.15.10E. Should Management deem it necessary to assign an employee to his/her regular job on the old facility in order to continue its efficient operation, it may do so on the basis of establishing such employee on the new job and temporarily assigning him/her to his/her former job until a suitable replacement can be trained for the job or its performance is no longer required. In such event, such employee shall be entitled to earnings not less than what he/she would have made had he/she been working on the job on which he/she has been established.

Section 16. Intraplant Transfers.

13.16 It is recognized that conflicting seniority claims among employees may arise when plant or department facilities are created, expanded, added, merged, or discontinued, involving the possible transfer of employees. It is agreed that such claims are matters for which adjustment shall be sought between Management and the appropriate grievance representatives or committees.

13.16.1 In the event the above procedure does not result in agreement, the International Union and the Company may work out such agreements as they deem appropriate irrespective of existing seniority agreements or may submit the matter to arbitration under such conditions, procedures, guides and stipulations as to which they may mutually agree, provided, however, that such agreements or conditions, procedures, guides, and stipulations do not unnecessarily restrict the transfer and promotional rights provided by this Article.

Section 17. Compensation for Improper Layoff or Recall.

13.17 In the event of improper layoff or failure to recall an employee in accordance with his seniority rights, in the absence of mutual agreements to an equitable lump sum payment, he/she shall be made whole for the period during which he/she is entitled to retroactivity in the same manner set forth in Article 8, Section 1.

Section 18. Filling Permanent Vacancies In Production and Maintenance (P and M) Positions.

13.18 Should a posted craft permanent vacancy within the Production and Maintenance Unit remain unfilled after exhausting the bidding process within the P&M Unit, the vacancy shall be filled by the senior bidder within the Process Automation Technical Unit, if any.

ARTICLE 14
SAFETY AND HEALTH

Section 1.

- 14.1** The Company and the Union will cooperate in the continuing objective to eliminate accidents and health hazards. The Company shall make reasonable provisions for the safety and health of its employees at the plant. The Company, the Union and the employees recognize their obligations and/or rights under existing federal and state laws with respect to safety and health matters.
- 14.1.1** Where devices which emit ionizing radiation are used, the Company will continue to maintain safety standards with respect to such devices not less rigid than those adopted from time to time by the Nuclear Regulatory Commission and will maintain procedures designed to safeguard employees and will instruct them as to safe working procedures involving such devices.
- 14.1.2** Where the Company uses toxic materials, it shall inform the affected employees what hazards, if any, are involved, and what precautions shall be taken to insure the safety and health of the employees. Upon the request of the Union members of the Joint Health and Safety Lead Team the Company shall provide copies of material safety data sheets or their equivalent on toxic substances to which employees are exposed in the work place; provided that when the information is considered proprietary, the Company shall so advise the Union members of the Joint Health and Safety Lead Team and provide sufficient information for the Union to make further inquiry.
- 14.1.3** The Company will continue its program of periodic in-plant air sampling and noise testing under the direction of qualified personnel. Where the Union members of the Joint Health and Safety Lead Team allege a significant on-the-job health hazard due to in-plant air pollution, or noise, the Company will also make such additional tests and investigations as are necessary and shall notify the Union members of the Joint Health and Safety Lead Team when such a test is to take place. A report based on such additional tests and investigations shall be reviewed and discussed with the Union members of the Joint Health and Safety Lead Team. For such surveys conducted at the request of the Union members of the Joint Health and Safety Lead Team, a written summary of the sampling and testing results and the conclusions of the investigation shall be provided to the Union committee members.
- 14.1.4** The Company shall provide adequate first aid for all employees during their working hours.
- 14.1.5** An employee who, as a result of an industrial accident, is unable to return to his/her assigned job for the balance of the shift on which he/she was injured will be paid for any wages lost on that shift.

Section 2.

- 14.2** Protective equipment and other devices necessary to properly protect employees from injury and sickness shall be provided by the Company according to practices now prevailing, or as such practices may be improved from time to time by the Company. Such protective equipment shall be provided by the Company without cost, except that the Company may assess a fair charge to cover loss or willful destruction thereof by the employee. When the Company introduces new personal protective apparel or extends the use of protective apparel to new areas or issues new rules relating to the use of protective apparel, the matter will be discussed with the Union grievance committee person for the area involved in advance, or if unavailable, with the assistant grievance committee person or steward for the area involved as soon as practicable, with the objective of increasing cooperation. Should differences result from such discussion, a grievance may be filed in the Second Step of the Grievance Procedure as outlined in this agreement. In the case of serious lost workday or fatal accidents or accidents which could have resulted in lost workday or fatal accidents and require a formal fact-finding investigation, the Company, will as soon as practicable after such accident, notify members of the Joint Health and Safety Lead Team and the appropriate Area Grievance Committee person who shall have the right to visit the scene of the accident promptly upon such notification, if they so desire, accompanied by a departmental management representative. The Company shall invite a Union member of the Joint Health and Safety Lead Team to attend its fact-finding investigation. After said investigation is completed, the Company will provide to the Union a copy of the accident investigation report. In such cases, when requested by such Union committee members, the Manager, Health and Safety, or his/her designated representative, will review the report with the Union members of the Joint Health and Safety Lead Team. Also, in such cases, the Manager, Health and Safety, or his/her designated representative, when requested by a member of the Joint Health and Safety Lead Team, will visit the scene of the accident with such Union committee member.

This notification shall be either oral or written and include the date of the fatality, the plant or unit location of the fatality and, if known, the cause of the fatality. The Company will provide the International Union Safety and Health Department with a copy of the fatal accident report that is given to the Union members of the Joint Health and Safety Lead Team. Any necessary discussion or other communication on this data between the Company and the International Union will be with the individual designated to provide such information.

14.5.11 Once each year the Company will, from the same source described above, provide to the International Union Safety and Health Department the OSHA Form 200 Summary of Occupational Injuries and Illnesses or its equivalent for each plant covered by this Agreement. The supervisor and employee(s) shall jointly visit the work site to review the specific safety concerns involved in an attempt to resolve the matter. Following such discussion, the oral disposition form provided for in Step 1 of Section 3 of Article 6 shall be immediately prepared, signed, and distributed as therein provided. If the complaint remains unsettled, the employee or group of employees shall have the right to: (a) file a grievance in Step 3 of the grievance procedure, which shall be considered at a Step 3 meeting during the week following the filing of such grievance and shall continue to receive preferred handling in such procedure and arbitration and (b) relief from the job or jobs, without loss to their right to return to such job or jobs; and, at the Company's discretion, assignment to such other employment as may be available in the plant; provided, however, that no employee, other than communicating the facts relating to the safety of the job, shall take any steps to prevent another employee from working on the job. 14.6.1 The arbitrator shall have authority to establish rules of procedure for the special handling of grievances arising under this Section 6.

Upon conclusion of such meetings, which in no event shall be less than 30 days prior to the proposed closure or partial closure date, the Company shall advise the Union of its final decision. The final closure decision shall be the exclusive function of the Company. APPENDIX A
Letters and Agreements Concerning Miscellaneous Matters

MEMORANDUM OF UNDERSTANDING ON CARBON MONOXIDE CONTROL PROGRAM

- 1**The Company recognizes that the steel producing and finishing processes require equipment that can produce carbon monoxide gas in dangerous concentrations under certain circumstances of accidental release. In order to minimize the potential for accidental release of blast furnace gas and other gases containing carbon monoxide, the Company shall complete a comprehensive survey at each of its plants at the earliest possible time. The survey, to be conducted by Engineering, Safety and other personnel as necessary, shall list locations from which, on the basis of experience or other information, significant amounts of carbon monoxide are likely to escape, the conditions which might cause such a release and the steps necessary to minimize or control the hazard. The survey will be updated whenever significant changes are made to the gas handling system or procedures.
- 2**The Company shall implement in a timely manner consistent with the hazards a reasonable program for the control of carbon monoxide which shall include but not be limited to the following:

 - a. A reasonable time schedule for the implementation of the steps necessary to eliminate or control the hazard as identified in the survey;
 - b. Evaluation and, where necessary, amendment of safe job procedures for gas system maintenance programs with respect to equipment whose failure might result in exposure to dangerous concentrations of carbon monoxide. Copies of these procedures shall be included in the control program;
 - c. Installation of adequate automatic carbon monoxide sensing devices equipped with alarms and use of portable carbon monoxide monitors where necessary to protect employees whose work assignments so require. Monitors, alarms and other parts of the detection and warning system shall be tested on a periodic basis sufficiently frequent to insure reliable operation. The control program shall include a general description of the location of the sensing devices and the general circumstances under which portable detectors shall be used and the frequency for periodic testing of the monitoring system;
 - d. Assignment of responsibility for the maintenance, inspection, and use of gas testing equipment and investigation of sources of gas when the automatic alarms are actuated;
 - e. Provision of an adequate number of approved breathing apparatus appropriate for emergency operations and escape in locations readily accessible to employees. The program shall include a description of the types of breathing apparatus and their locations as well as the identification of responsibility for checking and maintaining the devices;
 - f. Training of employees in recognition of the hazards and symptoms of carbon monoxide poisoning. Such training shall be within the framework of existing safety training programs after review of such programs and supplementation as required. As part of this training, employees shall be instructed in escape and emergency rescue procedures. A detailed outline of the training procedures shall be included in the program;
 - g. Posting of emergency escape procedures in areas of potential hazard;
 - h. An emergency rescue program which shall include provisions for treatment of carbon monoxide exposures, emergency rescue techniques for various parts of the plant, and appropriate rescue and recovery equipment including resuscitators. The program shall include identification of the employees trained in emergency rescue techniques.
- 3**A copy of the carbon monoxide control program or any portions thereof and any revision shall be provided upon request to the Union members of the Joint Health and Safety Lead Team and the International Union Safety and Health Department.
- 4**The results of an investigation of a carbon monoxide incident will be retained in a central file located in the Company Safety Department.

East Chicago, IN 46312

Dear Jack:

Recognizing that the parties have obligations under the Americans with Disabilities Act of 1990 (Act), during the negotiations which lead to our 1993 agreement, and subsequently, the parties fully discussed the Act and the possible impact of the Act on our employees and their rights under the collective bargaining agreement.

As a result of these discussions and in view of current uncertainties surrounding the interpretation of the Act, it is agreed that the Company and the Union will cooperate in an effort to:

- a. comply with the provisions of the Act,
- b. amicably resolve disputes arising from possible conflicts between the Act and the provisions of the labor agreement; and,
- c. make reasonable accommodations required by the Act.

Notwithstanding any other provision of this letter, the Union reserves its rights under the law and the labor agreement.

EMPLOYMENT SECURITY PLAN

1 The parties recognize that in order to provide employment security, the Company must be able to attain a level of sustained profitability.

A. EFFECTIVE DATE

1. The effective date of this Employment Security Plan ("Plan") shall be the week beginning August 1, 1999 for eligible employees as defined in Paragraph C below.

B. GUARANTEE

1. Employees covered by this Employment Security Plan will not be laid off during the term of this Agreement, except as may be provided in Article 13 or in the case of a disaster as set forth below. If a disaster occurs resulting in the layoff of employees, the Plan will be terminated. For the purpose of this agreement, a disaster is defined as:
 - a. The permanent shutdown of the Indiana Harbor Works.
 - b. A petition in bankruptcy for reorganization or liquidation is filed, and the Court finds that it is necessary to reject this Agreement and issues an order under the bankruptcy laws authorizing such rejection.
 - c. Severe financial difficulties short of bankruptcy filing. Such financial difficulties must represent a clear and present danger to the Company's viability. Disputes concerning this paragraph shall be subject to arbitration pursuant to a special emergency procedure to be agreed upon by the parties. Termination can occur under this paragraph only by mutual agreement of the parties or upon a finding by the arbitrator that the financial difficulty asserted by the Company does in fact represent a clear and present danger to the Company's continued viability.
2. In addition, in the event of a strike, or work stoppage by employees covered by this Plan, the Plan would be suspended for the duration of such strike or work stoppage.
3. In addition, in the event of a breakdown, or a repair downturn or outage which is expected to last for four (4) weeks or more, the Plan may, by mutual agreement of the parties, be suspended for affected employees only, for the duration of the breakdown, downturn or outage.
4. In the case of a permanent shutdown of an operating department (as the term operating department has been used historically by the parties and as listed on Attachment A) or a substantial portion of such an operating department, the coverage of the Plan shall be suspended only as to certain employees and only in accordance with the following:
 - a. A sequentially established employee in such department or a sequentially established employee on an occupation which was traditionally, routinely, and regularly dedicated exclusively to such department who is displaced from his/her sequence as a result of a shutdown of the department or a substantial portion of the department (as the term "substantial portion" has historically been understood by the parties) shall be laid off unless such employee is, as a result of greater plant continuous service, able to displace employees in the Plant-wide Labor Pool ("Pool") with less length of continuous service. Pool employees displaced as the result of the exercise of bumping rights provided for in this subparagraph shall be laid off and shall have no claim to employment security unless they are subsequently recalled and become eligible for such security pursuant to the provisions of Paragraph C below.
 - b. Additionally, maintenance employees displaced as a result of a shutdown of an operating department or a substantial portion of an operating department shall be entitled (i) first to displace employees with less length of continuous service temporarily assigned to the Central Maintenance Group and (ii) second to displace employees in the Pool in accordance with subparagraph a. above. Maintenance employees and Pool employees displaced as the result of the exercise of bumping rights provided for in this subparagraph shall be laid off and shall have no claim to employment

security unless they are subsequently recalled and become eligible for such security pursuant to the provisions of Paragraph C below.

5. In addition, in the event of a significant decrease in the level of plant operations, which for purposes of this Plan is defined as a temporary shutdown of a blast furnace, then employees affected by the decrease in the level of plant operations and eligible for employment security pursuant to Paragraph C of this Plan, may be temporarily scheduled on a thirty-two (32) hour a week basis. Any implementation issues or procedures that arise under this paragraph will be addressed by the appropriate Union and Company leadership.
6. For the purpose of this Plan, and except as provided in Paragraph B-4 above, employment security is defined as the opportunity to earn forty (40) hours of pay (including hours paid for but not worked, work opportunities declined by the employee pursuant to Article 10, Sections 4 and 5, disciplinary time off, absenteeism, report-off for Union business but excluding overtime penalty pay and premium pay), during any payroll week. An eligible employee on approved leave of absence or medically laid off during any payroll week shall be considered as having been provided employment security during that week, it being understood that the pay, if any, that such an employee is entitled to receive while on approved leave of absence or medical lay-off is that provided by applicable law or the Collective Bargaining Agreement, not the earning opportunity set forth in this Plan.

C. ELIGIBILITY

1. Except as employment security rights may be lost or acquired under the provisions contained in Appendices A-2 and A-3, all full-time active employees as of the week beginning May 30, 1993, are eligible for employment security under the provisions of this Plan. All full time employees who are accruing continuous service and who are not covered by employment security as of July 31, 1999 shall be eligible for employment security once they have been recalled and following twelve (12) continuous months of active employment, except as Appendices A-2 and A-3 may provide immediate employment security rights.
2. All employees hired after July 31, 1999 are eligible for employment security under the provisions of this Plan upon attaining three (3) years of continuous service.

D. SAFEGUARDS

If this Plan is terminated during the term of this Agreement, the financial position of the SUB Plan shall be deemed to be 100% as of the date of such termination and the Company shall be required to begin to accrue liability and make cash contributions as required by the SUB Plan.

NEUTRALITY

1. Introduction

The Company and the Union have developed a constructive and harmonious relationship built on trust, integrity and mutual respect. The parties place a high value on the continuation and improvement of that relationship.

2. Neutrality

- a. To underscore the Company's commitment in this matter, it agrees to adopt a position of Neutrality regarding the unionization of any employees of the Company.
- b. Neutrality means that, except as explicitly provided herein, the Company will not in any way, directly or indirectly, involve itself in any matter which involves the unionization of its employees, including but not limited to efforts by the Union to represent the Company's employees or efforts by its employees to investigate or pursue unionization.
- c. The Company's commitment to remain neutral as defined above may only cease upon the Company demonstrating to the arbitrator under Paragraph 7 below that in connection with an Organizing Campaign (as defined in Paragraphs 3(a) through 3(c) below) the Union is intentionally or repeatedly (after having the matter called to the Union's attention) materially misrepresenting to the employees the facts surrounding their employment or is unfairly demeaning the integrity or character of the Company or its representatives.

3. Organizing Procedures

- a. Prior to the Union distributing authorization cards to non-represented employees at a facility owned, controlled or operated by the Company, the Union shall provide the Company with written notification (Written Notification) that an organizing campaign (Organizing Campaign) will begin. The Written Notification will include a description of the proposed bargaining unit.
- b. The Organizing Campaign shall begin immediately upon provision of Written Notification and continue until the earliest of: (1) the Union gaining recognition under Paragraph 3(d)(5) below; (2) written notification by the Union that it wishes to discontinue the Organizing Campaign; or (3) ninety (90) days from provision of Written Notification to the Company.
- c. There shall be no more than one (1) Organizing Campaign in a bargaining unit in any twelve (12) month period.
- d. Upon Written Notification the following shall occur:

(1) Notice Posting

The Company shall post a notice on all bulletin boards of the facility where notices are customarily posted as soon as the Unit Determination Procedure in Paragraph 3(d) (3) below is completed. This notice shall read as follows:

"NOTICE TO EMPLOYEES

We have been formally advised that the United Steelworkers of America is conducting an organizing campaign among certain of our employees. This is to advise you that:

1. The Company does not oppose collective bargaining or the unionization of our employees.
2. The choice of whether or not to be represented by a union is yours alone to make.
3. We will not interfere in any way with your exercise of that choice.

4. The Union will conduct its organizing effort over the next ninety (90) days.
5. In their conduct of the organizing effort, the Union and its representatives are prohibited from misrepresenting the facts surrounding your employment. Nor may they unfairly demean the integrity or character of the Company or its representatives.
6. If the Union secures a simple majority of authorization cards of the employees in [insert description of bargaining unit provided by the Union] the Company shall recognize the Union as the exclusive representative of such employees without a secret ballot election conducted by the National Labor Relations Board.
7. The authorization cards must unambiguously state that the signing employees desire to designate the Union as their exclusive representative.
8. Employee signatures on the authorization cards will be confidentially verified by a neutral third party chosen by the Company and the Union.”

Following receipt of Written Notification, the Company may only communicate to its employees on subjects which directly or indirectly concern unionization on the issues covered in the Notice set forth above or raised by other terms of this Neutrality Section and consistent with this Section and its spirit and intent.

(2) Employee Lists

Within five (5) days following Written Notification, the Company shall provide the Union with a complete list of all of its employees in the proposed bargaining unit who are eligible for Union representation. Such list shall include each employee’s full name, home address, job title and work location. Upon the completion of the Unit Determination Procedure described in Paragraph 3(d 3) below, an amended list will be provided if the proposed unit is changed as a result of such Unit Determination Procedure. Thereafter during the Organizing Campaign, the Company will provide the Union with updated lists monthly.

(3) Determination of Appropriate Unit

As soon as practicable following Written Notification, the parties will meet to attempt to reach an agreement on the unit appropriate for bargaining. In the event that the parties are unable to agree on an appropriate unit, either party may refer the matter to the Dispute Resolution Procedure contained in Paragraph 7 below. In resolving any dispute over the scope of the unit, the arbitrator shall apply the principles used by the National Labor Relations Board.

(4) Access to Company Facilities

During the Organizing Campaign the Company, upon written request, shall grant continuous access to well-traveled areas of its facilities to the Union for the purpose of distributing literature and meeting with unrepresented Company employees. Distribution of Union literature shall not compromise safety or production or unreasonably disrupt ingress or egress or the normal business of the facility. Distribution of Union literature and meetings with employees shall be limited to non-work areas during non-work time.

(5) Card Check/Union Recognition

- (a) If, at any time during an Organizing Campaign which follows the existence of a substantial and representative complement of employees in any unit appropriate for collective bargaining, the Union demands recognition, the parties will request that a mutually acceptable neutral (or an arbitrator from the American Arbitration Association if no agreement on a mutually acceptable neutral can be reached) conduct a card check within five (5) days of the making of the request.
- (b) The neutral shall confidentially compare the authorization cards submitted by the Union against original handwriting exemplars of the entire bargaining unit furnished by the

Company. If the neutral determines that a simple majority of eligible employees has signed cards which unambiguously state that the signing employees desire to designate the Union as their exclusive representative for collective bargaining purposes, and that cards were signed and dated during the Organizing Campaign, then the Company shall recognize the Union as the exclusive representative of such employees without a secret ballot election conducted by the National Labor Relations Board.

- (c) The list of eligible employees submitted to the neutral shall be jointly prepared by the Union and the Company.

4. Hiring

- a. The Company shall, at any facility which it builds or acquires, give preference in hiring to qualified employees of the Company then accruing Continuous Service under the Agreement. In choosing between qualified applicants, the Company shall apply standards established by Article 13 of the Agreement.
- b. The hiring provision set forth above shall not apply where the employer for the purposes of collective bargaining is or will be a Venture (as defined in Paragraph 5(a) below); provided, however, that in a case where a Venture could have an adverse impact on employment opportunities for then current Employees, then the hiring provision set forth above shall apply to such Venture as well.
- c. Before implementing Paragraphs 4(a) and (b), the Company and the Union will decide how this preference will be applied.
- d. In determining whether to hire any applicant (whether or not such applicant is an Employee covered by the Agreement), the Company shall refrain from using any selection procedure which, directly or indirectly, evaluates applicants based on their attitudes or behavior toward unions or collective bargaining.

5. Definitions and Scope of this Agreement

a. Rules with Respect to Affiliates and Ventures

- (1) For purposes of this Section, the Company includes (in addition to the Company) any entity which is:

- (a) engaged in (1) the mining, refining, production, processing, transportation, distribution or warehousing of raw materials used in the making of steel; or (2) the making, finishing, processing, fabricating, transportation, distribution or warehousing of steel; and

c. Rules with Respect to New Affiliates and Ventures

The Company agrees that it will not consummate a transaction which would result in the Company having or creating (1) an Affiliate or (2) a Venture, without ensuring that the New Affiliate and/or New Venture, if covered by the provisions of Paragraph 5a(1)(a) above, agrees to and becomes bound by this Section.

- d. In the event that an Affiliate or Venture is not itself engaged in the operations described in Paragraph 5(a)(1)(a) above, but has an Affiliate or Venture that is engaged in such operations, then such Affiliate or Venture shall be covered by all provisions of this Section.

6. Bargaining in Newly-Organized Units

Where the Union is recognized pursuant to the above procedures, the first collective bargaining agreement applicable to the new bargaining unit will be determined as follows:

- a. The employer and the Union shall meet within fourteen (14) days following recognition to begin negotiations for a first collective bargaining agreement covering the new unit. In these negotiations the parties shall bear in mind the wages, benefits and working conditions in the most comparable operations of the Company (if any comparable operations exist), and those of unionized competitors to the facility in which the newly recognized unit is located.
- b. If after ninety (90) days following recognition the parties are unable to reach agreement for such a collective bargaining agreement, they shall submit those matters that remain in dispute to the Chair of the Union Negotiating Committee and the Chair of the Company Negotiating Committee, who shall use their best efforts to assist the parties in reaching a collective bargaining agreement.
- c. If after thirty (30) days following the submission of outstanding matters the parties remain unable to reach a collective bargaining agreement, the matter may be submitted to final offer interest arbitration in accordance with procedures to be developed by the parties.
- d. If interest arbitration is invoked, it shall be a final offer package interest arbitration proceeding. The interest arbitrator shall have no authority to add to, detract from or modify the final offers submitted by the parties, and the arbitrator shall not be authorized to engage in mediation of the dispute. The arbitrator shall select one or the other of the final offer packages submitted by the parties on the unresolved issues. The interest arbitrator shall select the final offer package found to be the more reasonable when considering (1) the negotiating guidelines described in Paragraph 6(a) above, (2) any matters agreed to by the parties and therefore not submitted to interest arbitration and (3) the fact that the collective bargaining agreement will be a first contract between the parties. The decision shall be in writing and shall be rendered within thirty (30) days after the close of the interest arbitration hearing record.
- e. Throughout the proceedings described above concerning the negotiation of a first collective bargaining agreement and any interest arbitration that may be engaged in relative thereto, the Union agrees that there shall be no strikes, slowdowns, sympathy strikes, work stoppages or concerted refusals to work in support of any of its bargaining demands. The Company, for its part, likewise agrees not to resort to the lockout of Employees to support its bargaining position.

7. Dispute Resolution

- a. Any alleged violation or dispute involving the terms of this Section may be brought to a joint committee of one (1) representative each from the Company and the Union. If the alleged violation or dispute cannot be satisfactorily resolved by the parties, either party may submit such dispute to the arbitrator. A hearing shall be held within ten (10) days following such submission and the arbitrator shall issue a decision within five (5) days thereafter. Such decision shall be in writing and need only succinctly explain the basis for the findings. All decisions by the arbitrator pursuant to this article shall be based on the terms of this Section and the applicable provisions of the law. The arbitrator's remedial authority shall include the power to issue an order requiring the Company to recognize the Union where, in all the circumstances, such an order would be appropriate.

- b. The arbitrator's award shall be final and binding on the parties and all employees covered by this Section. Each party expressly waives the right to seek judicial review of said award; however, each party retains the right to seek judicial enforcement of said award.
- c. For any dispute under this Section and the interest arbitration procedure described in Paragraph 6 above, the parties shall choose the arbitrator from the list of arbitrators described in Article Five, Section I (Adjustment of Grievances), Paragraph 6, contacting them in the order listed, and retaining the first to indicate an ability to honor the time table set forth above for the hearing and the decision.

SUCCESSORSHIP

1. The Company agrees that it will not sell, convey, assign or otherwise transfer, using any form of transaction (any of the foregoing, a Sale), any plant or significant part thereof which is covered by this Agreement to any other party (Buyer), unless the following conditions have been satisfied prior to the closing date of the Sale:
 - a. the Buyer shall have entered into an agreement with the Union recognizing it as the bargaining representative for the Employees working at the plant(s) to be sold; and
 - b. the Buyer shall have entered into an agreement with the Union establishing the terms and conditions of employment to be effective as of the closing date of the Sale.
2. The Company agrees that it will not consummate any transaction resulting in a Change of Control of the Company (a Transaction) unless the ultimate parent company of the entity which gains control (Newco) has satisfied the following conditions prior to the consummation of the Transaction:
 - a. Newco shall have recognized the Union as the bargaining representative for the Employees working at the plant(s) which are involved in the Transaction;
 - b. Newco shall have provided the Union with reasonable assurances that it has both the willingness and financial wherewithal to honor the commitments contained in all of the agreements between the Company and the Union applicable to the assets acquired (All USW Agreements);
 - c. In transactions not subject to paragraph d below, Newco shall have assumed all USW Agreements; and
 - d. In the event the Transaction occurs less than three (3) years before the Termination Date, Newco shall have either:
 - (1) entered into an agreement with the Union establishing the terms and conditions of employment to be effective upon the consummation of the Transaction; or
 - (2) at the USW's option, either
 - (a) assumed All USW Agreements applicable to the assets acquired, or
 - (b) assumed All such USW Agreements and extended them for a period of at least three (3) years beyond their then scheduled expiration with the terms and conditions of the period of the extension to be determined, absent a negotiated agreement, by final offer interest arbitration. The Union shall provide Newco with notice of the choice of its option prior to the consummation of the Transaction.
3. Change of Control is defined as the gaining by any person or group of persons (as the term person is used in Sections 13(d) and 14(d) of the Securities Exchange Act of 1934, as amended) (Person) of the power to direct the management and policies of the Company (other than Persons having such power as of the Effective Date).
4. This Section shall not apply to any transactions solely between the Company and any of its Affiliates, nor to a public offering of registered securities.
5. If the common stock of the Company is publicly traded on a nationally recognized stock exchange, then this Section shall not apply to any Transaction that results from an unsolicited tender offer or similar unsolicited transaction. This Section shall, however, apply in case of any merger or other consensual Transaction, regardless of whether that consensual Transaction results from an initial unsolicited offer.
6. Notwithstanding the provisions of Article Twenty Two (Term of the Agreement), this Section shall expire one (1) year after the Termination Date.

UNION REPORT OFFS

Mr. Dennis Shattuck
Chairman, Grievance Committee
United Steelworkers of America
Local 1010
3703 Euclid Avenue
East Chicago, IN 46312

Dear Dennis:

During the 2000 Process Automation Engineer Technician contract negotiations, the parties discussed Process Automation Engineer Technician report offs for Union business and the potential for business disruption in the event of late reporting off. The Company's concerns stemmed from problems in this regard experienced with the P & M employees over the past several years, problems which could be magnified due to the relatively small Process Automation Engineer Technician bargaining unit. Several proposals were submitted by the Company which were more restrictive than the P & M report off language. Agreement on language could not be reached. Therefore, instead of delaying these negotiations with what the company considers a potentially serious situation, and in view of the fact that the Company has no experience with report offs with the new Process Automation Engineer Technician Union, the parties recognize that it is in the best interests of both parties for report offs to occur as early as possible, preferably communicated prior to schedules being prepared for the following week. Both parties expressed a desire to avoid future problems and Company/Union confrontations due to Union business report offs and pledged to work together in this regard.

Cordially,

T. L. Kinach
Section Manager
Union Relations

INSTITUTE FOR CAREER DEVELOPMENT

1. Establishment

The Union and the Company hereby establish the USWA/ArcelorMittal Institute for Career Development (the Institute) which, in conjunction with similar programs negotiated by the Union with various other employers, will be administered under the rules and procedures of the Institute for Career Development (ICD).

2. Purpose

The purpose of the Institute is to provide resources and support services for the education, training and personal development of the Employees of the Company, including upgrading their basic skills and educational levels.

3. Guiding Principles

The Institute and ICD shall be administered in a manner consistent with the following principles:

- a. workers must play a significant role in the design and development of their jobs, their training and education and their working environment;
- b. workers should be capable of reacting to change, challenge and opportunity and this requires ongoing training, education and growth; and
- c. worker growth and development can only succeed in an atmosphere of voluntary participation in self-designed and self-directed training and education.

4. Financing

The Institute will be financed by \$0.15 for each hour worked by all Employees. The parties will also seek and use funds from federal, state and local governmental agencies.

5. Administration

- a. The Institute will be administered jointly by the Company and the Union in accordance with procedures, rules, regulations and policies agreed to by the parties.
- b. Training is separately provided for in the Agreement. The Company may, however, contract with the Institute to provide services and resources in support of such training.
- c. The Company agrees to participate fully as a member of ICD in accordance with policies, rules and regulations established by the ICD. The Company's financial contributions to the Institute will continue to be separately tracked. ICD will continue to be under the joint supervision of the Union and participating employers with a Governing Board consisting of an equal number of Union and employer appointees.

6. Reporting, Auditing, Accountability and Oversight

The following minimum requirements shall govern reporting, auditing, accountability and oversight of the funds provided for in Paragraph 4.

a. Reporting

- (1) For each calendar year quarter, and within thirty (30) days of the close of such quarter, the Company shall account to the ICD, the International Union President and the Chair of the Union Negotiating Committee for all changes in the financial condition of the Institute. Such reports shall be on form(s) developed by the Institute broken down by plant and shall include at least the following information:
 - (a) The Company's contribution, an explanation thereof and the cumulative balance; and

(b) a detailed breakdown of actual expenditures related to approved program activities during said quarter.

(2) The Union Co-Chairs of each of the Local Joint Committees shall receive a report with the same information for their plant or Local Union, as the case may be.

b. Auditing

The Company or the Union may, for good reason, request an audit of the Company reports described in Paragraph 6(a) above and of the underlying Institute activities made in accordance with the following: (1) the Company and the Union shall jointly select an independent outside auditor; (2) the reasonable fees and expenses of the auditor shall be paid from ICD funds and (3) the scope of audits may be Company-wide, plant-specific, or on any other reasonable basis.

c. Approval and Oversight

Each year, the Local Joint Committees shall submit a proposed training/education plan to the Chairs of the Union and Company Negotiating Committees or their designees. Upon their approval, said plans shall be submitted to the Institute. The Institute must approve the plan before any expenditure in connection with any activities may be charged against the funds provided for in this Agreement. An expenditure shall not be charged against such funds until such expenditure is actually made.

7. Dispute Resolution Mechanism

a. Any dispute regarding the administration of the Institute at the Company or plant level shall be subject to expedited resolution by the Chairs of the Union and Company Negotiating Committees and the Executive Director of ICD who shall apply the policies, rules and regulations of the Governing Board and the provisions of this Section in ruling on any such dispute. Rulings of the Executive Director may be appealed to the Governing Board, but shall become and remain effective unless stayed or reversed by the Governing Board.

b. Within sixty (60) days of the Effective Date, the parties will develop an expedited dispute resolution mechanism that resolves disputes within two (2) weeks.

The Company shall also replace such shoes, as necessary, in accordance with applicable laws.

WORKPLACE HARASSMENT, AWARENESS, AND PREVENTION

1. All Employees shall be educated in the area of harassment awareness and prevention on no less than a yearly basis.
2. A representative of the Union's Civil Rights Department and a representative designated by the Company's Labor Relations and/or Human Resources Department will work together to develop joint harassment and prevention education, with input from the plants and Local Unions.
3. Within six (6) months of the Effective Date of this Agreement, members of the Joint Civil Rights Committee will be trained in matters relative to this provision.
4. All new Employees (and all Employees who have not received such training) will be scheduled to receive two (2) hours of training as to what harassment is, why it is unacceptable, its consequences for the harasser and what steps can be taken to prevent it.
5. All Employees shall be compensated in accordance with the standard local plant understandings for time spent in training referred to in this Section.

**MEMORANDUM OF UNDERSTANDINGS
ON MISCELLANEOUS MATTERS**

Officials representing the Company and the Union will, from time to time during the life of this Agreement, but not more often than semiannually, at the request of either and the mutual convenience of both, meet to appraise their administration of this Agreement and to improve understanding between the respective parties and among the employees. The subject matter to be discussed at such a meeting shall be agreed upon by the parties. In such meetings, each party shall be represented by a committee of not more than four persons. Such meetings shall not be for the purpose of conducting collective bargaining negotiations, discussing individual grievances, or in any way of modifying, adding to, or detracting from the provisions of this Agreement.

The parties also reviewed the Company's policy to provide excused absences and leaves of absence to allow employees to participate in these types of worthwhile activities.

TESTING

1. Where tests are used as an aid in making pre-selection determinations of the ability to perform the work, such a test must in all events be:
 - a. job related;
 - b. in accordance with Article Four, Section 4 (Non-Discrimination);
 - c. uniformly applied within each respective plant; and
 - d. based on the passing grade that is required to determine ability to perform the work.
2. A job related test, whether oral, written or in the form of an actual work demonstration, is one which measures whether an Employee can satisfactorily meet the specific requirements of that job including the ability to absorb any training which may necessarily be provided in connection with that job.
3. Testing procedures shall in all cases include notification to an Employee of any deficiencies and an offer to counsel how to overcome the deficiencies.
4. Where, in accordance with this Agreement, a test is used by the Company as an aid in making a determination of the Employee's ability to perform the work and where the use of the test is challenged in the grievance procedure, the following shall pertain:
 - a. The Company will furnish to a designated representative of the International Union either the test itself or examples of test questions, certified by a testing agency as equivalent in any relevant respects to questions used in the disputed test and sufficient in number to evaluate the test, and all such background and related materials as may be relevant and available. In cases where all or part of the test is non-written, a complete description of the test shall be provided along with all such background and related materials as may be relevant and available.
 - b. All such test questions and materials will be held in strictest confidence and will not be copied or disclosed to any other person; provided that such test questions and materials may be disclosed to an expert in the testing field for the purpose of preparing the Union's position in the grievance procedure and to an arbitrator, if the case proceeds to that step. All test questions and materials will be returned to the Company following resolution of the dispute.
 - c. Copies of transcripts and exhibits presented in the arbitration of cases involving the challenge to a test will also be held in confidence and will not be copied or otherwise published.

FAMILY AND MEDICAL LEAVE

1. GENERAL

This is an agreement between the Company and the Union regarding implementation of the Family and Medical Leave Act of 1993 ("FMLA").

The FMLA provides for up to 12 weeks of unpaid leave each year for eligible employees to take care of a serious health condition of certain family members or of employees themselves, and for the birth, adoption or foster placement of a child. The law also requires the continuation of certain benefits under certain conditions while on leave and includes certain notice requirements in order to obtain the leave. A copy of the law and the implementing regulations are available for review at the Employee Benefits Department.

Any employees currently on leave may elect to continue on leave under the terms and conditions of the 1999 CBA Article 13, Section 15 or may convert the leave to one covered by the terms and conditions of this FMLA agreement upon furnishing the Company with medical certification as described in paragraph 8. below, establishing that the leave would otherwise be covered under the provisions of the FMLA and providing further that the portion of the leave taken prior to August 5, 1993, will not be counted against the leave provided under the FMLA.

2. ELIGIBILITY

Any employee who has at least 6 months of continuous service shall be eligible for up to twelve (12) weeks of unpaid leave in any twelve (12) month period in connection with the birth, adoption or foster care placement of a child, the need to care for a seriously ill family member or the employee's own serious illness.

The twelve (12) weeks shall be measured on a rolling twelve (12) month period, measured backward from the date the requested leave would commence. Any time off taken in connection with any of the above situations shall be counted toward the twelve (12) week period. If a husband and wife are both employed by **ArcelorMittal** then the aggregate number of workweeks of leave to which both may be entitled may be limited to 12 workweeks during any 12-month period, if such leave is taken for parental leave under paragraph 4, or to care for a sick parent under paragraph 5.

3. DEFINITIONS

"Spouse" means a husband or wife as defined or recognized under State law for purposes of marriage, including common law marriage to the extent recognized by the State in which the employee resides.

"Parent" means a biological parent, a stepparent when they have lived with the employee in an immediate family relationship, or an individual who stands or stood in loco parentis. A family member is limited to an employee's legal spouse, mother, father, son, daughter, (including stepfather, stepmother, and stepchildren when they have lived with the employee in an immediate family relationship).

4. PARENTAL LEAVE

An employee shall be entitled to unpaid leave of up to twelve (12) continuous weeks in connection with the birth, adoption or foster care placement of a child. An employee may request leave related to the birth, adoption or foster care placement of a child on an intermittent or reduced leave schedule, however, such leave may be taken only with the Company's permission.

A pregnant employee who continues at work until certified as totally disabled shall, effective at the conclusion of her period of disability, be entitled to an unpaid leave for a period of up to (12) twelve continuous weeks.

5. CARE OF A FAMILY MEMBER

An employee shall be entitled to unpaid leave of up to twelve (12) weeks to care for a seriously ill parent, child, or spouse who suffers a serious health condition that is a condition requiring hospitalization or on-going care by or supervised by a licensed physician, surgeon, podiatrist, dentist, clinical psychologist, optometrist, chiropractor, nurse practitioner, nurse-midwife or Christian Science Practitioner to the extent set forth in the FMLA regulations, 29 CFR Part 825.

6. EMPLOYEE ILLNESS

An employee shall be entitled to unpaid leave of up to twelve (12) weeks in connection with the employee's own serious health condition as set forth in the FMLA regulations, 29 CFR Part 825. **Time off related to Sickness and Accident, or compensable workplace illness or injury shall be excluded.**

Current provisions applicable under the Collective Bargaining Agreement and the Benefits Agreements in connection with an employee's own health condition shall continue to apply. In the event the employee should exhaust Sickness and Accident or Workers' Compensation benefits prior to being released for work and prior to exhausting the leave entitlement under the FMLA, then he/she could continue on unpaid FMLA leave until such time as the FMLA entitlement has been exhausted.

Pursuant to 29 CFR Part 825 any absence in excess of four (4) calendar days, related to the employee's illness or accident, including absences covered under applicable Workers' Compensation laws, shall be deemed to be leave taken pursuant to the FMLA.

7. INTERMITTENT OR REDUCED LEAVE SCHEDULING

The FMLA permits leave to be taken on an intermittent or reduced leave schedule if related to the serious illness of the employee or covered family member, when it is medically necessary. If related to the birth, adoption, or placement of a child, such leave may be taken with the employer's permission.

An employee seeking leave in other than continuous weeks must schedule the time off in the manner least disruptive to the Plant's operating needs.

Where leave is sought other than in full day increments, the employee may be assigned by Management to any available position consistent with the seniority provisions of the Collective Bargaining Agreement and paid at the regular rate for that position, for the portion of the shift actually worked. The employee may not displace anyone who was assigned to the employee's normal position for the period of absence except at Management's discretion.

Where leave is sought in increments of less than a full work week, if Management, consistent with the seniority provisions of the Collective Bargaining Agreement, is able to accommodate the need for time off by adjusting the employee's work schedule (including, but not limited to, altering the shift assignment or the scheduled work days), no leave need be provided.

8. NOTICE

In the case of leave sought in connection with the birth, adoption or foster care placement of a child, the employee shall advise his/her Department Head and Employee Benefits of the anticipated need for leave as soon as possible; but, in no event, less than thirty (30) days prior to the expected delivery or placement date; provided, however, where such notice is not possible because the employee has no knowledge of the possibility of the event occurring or such notice is not practicable because of a change in the circumstances or a medical emergency, notice should be given as soon as practicable i.e. within one or two business days of when the need for leave becomes known. In the event of a failure to provide such notice, the Company may delay the commencement of the leave for up to ten (10) days after notice is received.

In the case of leave sought in connection with the serious health condition of the employee or a family member, the Department Head and Employee Benefits shall be notified as soon as possible (within forty-eight (48) hours) of the need for leave and the expected duration and schedule of the leave.

In the case of a leave to care for a family member, following the initial notice provided above, a written notice shall be provided as soon as possible, but in no event more than fifteen (15) calendar days from the

time the need for the leave arises. This notice shall be accompanied by a certification signed by the attending physician or other health care provider and shall include:

1. The date on which the condition commenced;
2. The probable duration of the condition;
3. Appropriate medical information, sufficient to enable the Company to reasonably review the request; and
4. Why it is necessary for the employee to provide care to the family member and an estimate of the amount of the employee's time which is necessary for that care.

Where the leave is to be taken in other than a single continuous period of time, the notice shall also include:

5. The dates on which the medical treatment is expected to be given;
6. The duration of such treatment;
7. The medical necessity for leave to be granted on an intermittent basis;
8. The expected duration of the need for an intermittent schedule;

and

9. The medical reason why it is necessary for the care to be provided to the family member on an intermittent basis.

Certification forms can be obtained from the employee's department or at the local Benefits office.

In the event the Company determines that the certification provided by the employee is inadequate, it may require evaluation of the situation involved and a determination of any appropriate changes to the certification by a physician of its choice. The Company shall bear the cost of any second opinion.

At its election, the Company may require a third opinion, at its expense, by a physician agreeable to both it and the employee. In such case, the third opinion shall be final and binding on both the Company and the employee. This physician review process must be completed as expeditiously as possible so as not to unreasonably deny employee leave.

Where the initial certification is by a Christian Science Practitioner, the Company may require any second or third opinion be provided by a physician.

9. PAY

Except for the substitution of vacation (at the employee's request) and the utilization of Sickness and Accident or Workers' Compensation benefits, all time off provided shall be unpaid. Time off without pay granted pursuant to the FMLA shall be considered as time not worked through choice of the employee and may not be utilized in connection with a claim by the employee under any provision of this agreement for any wages, benefit or entitlement, eligibility for which is related to hours worked unless the employee otherwise meets the eligibility requirements for such wage, benefit or entitlement.

10. TERMINATION OF LEAVE

An anticipated duration of the leave sought shall be established at the time the leave is granted. Upon termination of a leave, the employee shall be reinstated to the same or an equivalent position as that held at the time the leave commenced, consistent with the seniority provisions of the Collective Bargaining Agreement, unless there was an intervening event including but not limited to a reorganization or force reduction. In the latter event, the employee shall be reinstated to the same or

an equivalent position or status which he/she would have held after the intervening event if the leave had not been taken.

An employee who wishes to return from leave prior to the scheduled return date must give the Department Head and Employee Benefits twelve (12) days notice of his/her desire to return, unless the Company agrees to a shorter period in a particular case.

An employee on a leave under this FMLA agreement is not eligible for Supplemental Unemployment Benefits in the event of a lay-off, until following the scheduled termination of the leave.

An employee who fails to return as scheduled from FMLA leave will be subject to the provisions of Article 13, Section 11 of the Collective Bargaining Agreement.

11. CONTINUOUS SERVICE

Leaves of absence under this program shall not constitute a break in the employee's length of continuous service and the period of such leave shall be included in his/her length of continuous service under the labor and benefit agreements. Employees with less than two years' service will also continue in benefit coverage during such leave.

12. BENEFIT CONTINUATION

Provided the employee is otherwise eligible and continues making any normally-required premium or other payments, in a manner acceptable to the Company, all benefit coverage, including the accrual of continuous service, shall continue during the period of leave. In the event the employee fails to make such payments, all benefit coverage shall terminate after thirty (30) days.

13. GOOD FAITH EFFORTS

In the event problems develop in implementing this FMLA agreement, whether as a result of changes in the law or regulations or otherwise, the parties agree to use their best efforts to resolve them in a manner designed to assure minimal disruption to the operation, minimize absenteeism and provide an employee the time necessary to meet family and personal emergencies and obligations.

MEMORANDUM OF UNDERSTANDING ON CHECK-OFF

Mr. Jack Parton
Director, District 31
United Steelworkers of America
710 Chicago Avenue, Room 211
East Chicago, IN 46312

Re: Memorandum of Understanding on Check-Off

Dear Mr. Parton:

1 The Company will implement the dues check-off provisions of this Agreement in accordance with the following:

- a. The monthly membership dues for each employee who has provided a voluntary check-off authorization card shall be an amount equal to 1.3% of said member's total earnings during the month, provided that monthly dues shall not be less than \$5.00 and provided further that monthly dues shall not be more than 2.5 times the member's average hourly earnings. For lump sum payments, dues shall be calculated separately by applying the 1.3% to such payments.
- b. Inactive employees (employees who had been laid off or on leave of absence or who quit, died or retired) who receive lump sum payments shall have an amount of dues deducted from the lump sum payments equal to 1.3% of such payments.
- c. All determinations as to an employee's dues liability shall be based on earnings for the pay period. Dues will be deducted on a per-pay-period basis and remitted monthly for the pay periods closed in the month for which dues are being deducted.

2 Dues are calculated as follows:

- a. Determine total earnings (TE). Total earnings to be defined as gross earnings less items to be excluded from gross earnings.
- b. Determine lump sum payments (LS). Lump sum payment to be defined as payments not related to work performed in the dues calculation period or for which hours cannot be associated.
- c. Calculate adjusted total earnings (ATE). (TE minus LS).
- d. Determine the number of hours of work associated with adjusted total earnings (ATE).
- e. The CAP calculation equals adjusted total earning (c) divided by the hours associated with adjusted total earnings (d) factored by the appropriate earnings period cap multiplier (i).
- f. Multiply adjusted total earnings (c) by 1.3%.
- g. Multiply lump sum payments (b) by 1.3%.
- h. To calculate the check-off amount add (g) to the lesser of (e) or (f), but not less than five dollars per month divided by the average number of pay periods closed in the month
- i. Earnings Period Cap Multiplier

Weekly	.6461
Bi-weekly	1.2923
Semi-monthly	1.4
Monthly	2.8

3 Earnings shall mean gross earnings but shall not include insurance benefits; SUB plan benefits; relocation allowance; Workmen's Compensation benefits; death or trust benefits or payments; classroom instructor

fees (outside working hours); EPP payments; severance allowance; military encampment or emergency duty allowance; jury or witness allowance; uniform, clothing or tool allowance; funeral leave allowance; reporting pay or special allowances for meals.

- 4 Profit sharing payments under the Profit Sharing plan shall be considered lump sum payments under this letter. EIP profit sharing payments, shortfall payments and stock contributions shall be considered lump sum payments with dues calculation in accordance with the attached December 18, 1987, dues letter updated to use 1.3% rather than 1.15%. The reference to Appendix 12 in that letter shall be considered a reference to this letter. Gainsharing payments shall be considered lump sum payments under this letter.
- 5 The "hours associated with adjusted total earnings" will consist of:
 - a. Actual hours worked in the pay period.
 - b. One hour for each hour paid in the pay period to bargaining unit employees under the minimum salary guarantee or salary continuance provisions.
 - c. On worked holidays, 1.5 hours for each hour worked in addition to actual hours worked.
 - d. Hours used in the calculation of vacation pay in the pay period.
- 6 This memorandum shall not be deemed to alter the meaning of "average hourly earnings" as that term may be used for purposes other than dues calculation.

Should the Union change the dues provision in its constitution or the interpretation of that dues provisions such that the procedure for the calculations of dues set forth above is changed, it will notify the Company which will implement the changes unless those changes would cause significant administrative problems in which event the parties will meet to discuss the matter and reach a reasonable accommodation.

Very truly yours,

ERGONOMICS

The Joint Safety and Health Committee will, among its priorities, discuss safety and health matters related to ergonomics with the intention of identifying jobs and tasks and corrective action where employees may face a risk of repetitive strain disorders and other musculoskeletal injuries and diseases.

As potential ergonomic projects are identified by the Joint Safety and Health Committees, they may solicit assistance of departmental safety teams. Those employees associated with the projects will, as mutually agreed by the Joint Safety and Health Committee, receive training to help the participants understand how to implement the respective ergonomics principles within the plant.

To assist in this endeavor, the Company's Safety, Health and Medical Departments and the International Union Safety and Health Representatives, as requested by either party, will jointly conduct periodic reviews of the ergonomic projects and their status.
