

# Picket Duty Survey

Whether or not we have a labor dispute depends on what management does at the bargaining table. This survey will help ensure everyone is involved in the event of a labor dispute both on the picket line and beyond. Please return this survey to a member of our CAT team or an officer as quickly as possible.

**Join a Committee:** Winning a labor dispute takes more than standing on a picket line. Our local union is organizing several committees to help plan activities, build support and keep members engaged.

Do you want to serve on one of these committees?

Committee	Description	I am interested
Membership Communication	Help keep everyone informed about what's going on.	
Community Outreach	Reach out to people in our community to build support. This may involve going to visit other local unions, churches, local businesses, or community organizations.	
Picket Lines	Help coordinate activities on the picket line including making sure picket shifts are covered and people have everything they need to be safe and comfortable such as restrooms, bottled water, snacks, shelter from the weather, etc.
