To All Local 1010 USW Represented Members:

Currently as most know the nation is slowing down while we are trying to battle this COVID-19 virus.

The Auto and Appliance industries are either shut down or at reduced operations for the time being.

Our facility will continue to operate at this time. As we proceed the use of contractors will be at a minimum. Of course overtime is going to be reduced as we are preparing to scale back operations. We do not know what the future holds.

Also we are awaiting word from Governor Holcomb on our "Essential Industry" designation. This will allow our plant to continue to operate in case there is a travel ban.

Cleanliness with-in the plant:

Due to many concerns by members and union representative's ArcelorMittal IHE has hired a deep cleaning service that is going to clean some welfare and common areas within the plant. Other departments will have their own labor groups doing the same. At this time we are limited on sanitizing supplies due to the shortage in the country. When these supplies do come in we ask that you refrain from hoarding them.

Area Union Representatives will be meeting with area management in the coming week to work on staggered scheduling for start times and safety meetings.

We ask anyone that is not feeling well to not come to work and seek medical care.

We will provide more information as it becomes available.

Our objective is to work safe and keep working.

In Solidarity,

Steve Wagner
